### Priests, Others Back the Party

## *Italy Communists' Unusual Allies*

ROME, June 3 (AP).—A Florentine theologian, a European Economic Community official and a former editor of a Catholic newspaper are among candidates enlisted by Italy's Communist party in its drive to woo non-Marxist voters in the June 20-21 general elections.

Italian Communists have long reserved some slots on the party slate for independent candidates in the Chamber of Deputies and the Senate. But never before have they succeeded in attracting as many outsiders as candidates in an election.

Some analysts say it reflects a new truce between the Communists and the middle and upper classes that they have traditionally battled.

Others say it is a "bandwagon" effect stemming from the gains made by the Communists in last year's nationwide regional elections.

The party boosted its share of the vote to 33 per cent in those elections—just 2 per cent less than the Christian Democrats, who have ruled Italy since the end of World War II.

If they can pull the same percentage this month, the Communists would pick up 30 more seats in the 630-man Chamber of Deputies, where they now hold 179.

That would give them a good possibility of sharing in the next government, something the United States vehemently opposes because of its possible effect on NATO.

The Communists have fielded about 40 independents among their 900 candidates. The independents are not required to be Marxists and would not be bound by party discipline if elected to Parliament.

They include:

• Altiero Spinelli, in charge of industry in the European Commission, the Brussels-based executive body of the EEC.

• Retired air force Gen. Ginevri, a former deputy supreme commander for nuclear affairs at NATO.

United Press International.

THE MEDIUM IS THE MESSAGE—Posters in Rome.

• Paolo Bressi, a former Vatican lay official and expert on the lives of saints.

• Mario Gozzini, a Florentine lay theologian who prepared a draft of a Catholic catechism for adults under assignment from the Italian Catholic Bishops' Conference.

• Raniero La Valle, former editor of the bishops' national newspaper, Avvenire.

• Gennaro Gudagno, chief state attorney fo. the Naples Court of Appeals.

• Carlo Bernardini, dean of sciences at Rome University.

• Stage actress Valeria Moriconi and movie director Gillo Pontecorvo.

In addition, dozens of Catholic priests are actively campaigning for the Communists, defying

(Continued on Page 2, Col. 3)

### *Both Reject Soviet Model*

## rench Reds Get Help From Italian Leader

RIS, June 3 (IHT).—Italian munist party leader Enrico nguer said at a giant politrally here tonight that both Italian and French Communparties rejected Soviet and European-style Communism Western Europe.

eaking along with French leader Georges Marchais at eeting in north Paris, Mr. nguer told an audience of of thousands that both parlooked on Eastern Europe mixed feelings.

ile admitting that East pean Communism had redit "large and positive achievements" Mr. Berlinguer that the French and Italian es observed it "in a critical ner, as having aspects that not applicable in countries as ours."

Berlinguer's speech here the first he had made at a meeting in Paris and the ch party turned it into a orical encounter" to the t of chiding the French press not giving it more coverage.

French party gave exceptional publicity to the meeting in s that some of the Italian y's moderate image would off on it.

**Highest Importance**

r. Marchais, speaking before Berlinguer, singled out the rtance to all Communists of Italian general elections 20 and 21 and said that the French and Italian ies "attached the highest rtance to the development mmon action among Comist and Socialist parties, ng all democratic and proive parties in Western pe."

le theme of both Communist ers was that each party was to follow its own "national" toward socialism. Mr. Marais referred to it several times Mr. Berlinguer said that no y should "remain prisoner of nodel formulas or experces."

here was no attempt, however, hide the differences between two parties. L'Humanité, the ach party newspaper, admitthe differences in a frontarticle today and said that y existed "because the two ntries are different."

r. Berlinguer alluded to one the differences on a French lo program today when he nted out that the French party losed while the Italian party ored direct election to the ropean Parliament.

Mr. Marchais answered that nment during his speech toht, saying that both parties ired "a democratization of the ropean Economic Community

Keystone.

Enrico Berlinguer at news conference in Paris yesterday.

both in its orientations and its functioning."

Listing the guarantees that both parties offered to their nations, Mr. Berlinguer said both were in favor of a "plurality of political parties, including opposition parties and the democratic alternation of political majorities and minorities."

He said that both parties favored free labor unions and "the development of democracy within industry so that the workers may participate in management with large decision-making powers."

While Mr. Berlinguer tonight reasserted his oft-stated determination to keep Italy in NATO, Mr. Marchais accused the United States of "interference" in French affairs and called the Atlantic pact a "warlike set-up" to which French armed forces have been subordinated.

## Aid Voted By House; Seoul Curb Is Rejected

By Bernard Gwertzman

WASHINGTON, June 3 (NYT).—The House of Representatives approved a new foreign aid bill yesterday and refused by a decisive vote to put limits on assistance to South Korea for its alleged repressive policies.

In a major setback to liberals who had sought to punish the Seoul regime, in effect, for widely criticized arrests of dissidents and opposition leaders, the House voted, 241 to 159, to overturn an earlier committee action putting curbs on aid.

The vote in favor of an amendment sponsored by Rep. Edward Derwinski, R.-Ill., and backed by the Ford administration, insured that South Korea would receive the full $485.5 million in military aid sought by the administration.

The House International Relations Committee had previously approved a proposal by Rep. Donald Fraser, D-Minn., that would have limited military aid to $290 million for the 27-month period covered by the $9.9-billion military and economic aid bill that has already been vetoed once by Mr. Ford.

But after the two-hour debate on Korea and briefer discussion on African and other issues, the House approved the foreign aid authorization bill, 255 to 140.

**Senate Debate**

The Senate, which took up a somewhat different version of the bill, authorizing a $9.4-billion program for the same 27-month period, adjourned after lengthy discussion of some amendments. Senate leaders hoped to complete action on the bill no later than tomorrow.

In the Senate, the main issue on the floor was the administration's new policy toward southern Africa, with Sen. James Allen, D-Ala., threatening a filibuster to block $25 million in contingency funds for southern African countries opposed to the white minority regime of Rhodesia.

His attempt to delete the $25 million, of which Secretary of State Henry Kissinger has pledged half to Marxist-ruled Mozambique, failed 45 to 29. But the bill's floor manager, Sen. Hubert Humphrey, D-Minn., did get approval of an amendment barring use of any part of the $25 million for guerrilla or other paramilitary activities, in an effort to soothe conservative concern.

**Bar on Mozambique**

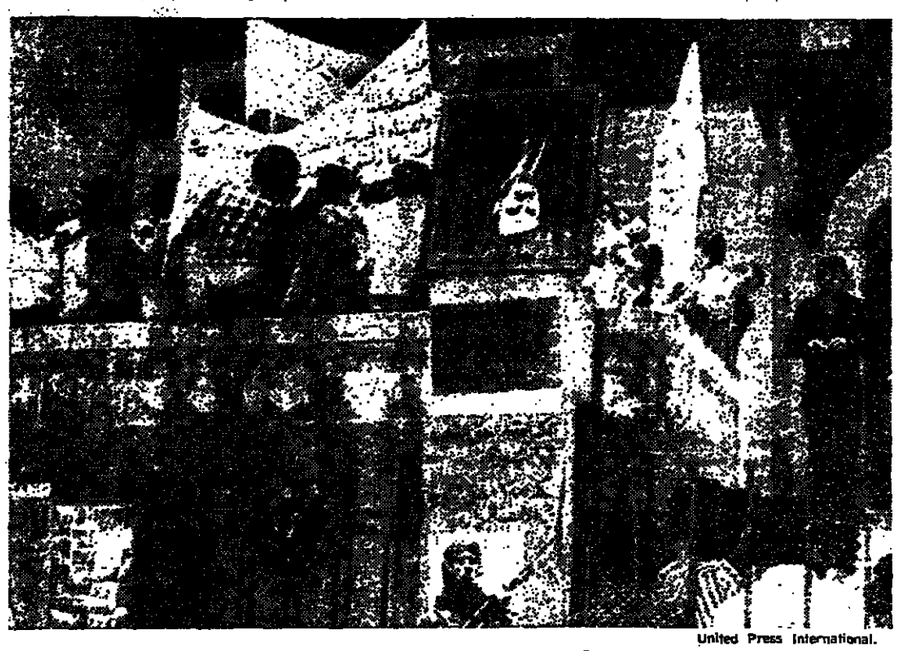

In the House, however, an amendment sponsored by Rep. Philip Crane, R-Ill, to bar any aid to Mozambique was passed by voice vote.

The House did accept an amendment offered by Rep. Charles Rangel, D-N.Y., providing $35 million for black southern Africa, including $30 million for Zaire and $30 million for Zambia, matching a provision in the Senate version.

The differing versions will have to be reconciled by a Senate and House conference.

Mr. Ford had vetoed the earlier authorization bill on the ground that it contained too many policy restrictions on his ability to conduct foreign policy.

The new versions—particularly the Senate bill—have been modified to meet his objections. It is expected that the final version of the new bill will be approved by Mr. Ford.

ANTI-SYRIAN PROTEST—Portrait of President Hafez al-Assad is turned upside down during occupation of the Syrian Embassy in Cairo by Arabs protesting Lebanon policy.

### *Arab League Offices in Paris Also Occupied*

## 3 Syrian Embassies Targets of Protests

*From Wire Dispatches*

CAIRO, June 3.—Protesting Syria's "invasion" of Lebanon, hundreds of Arab students today occupied the Syrian Embassy here, smashed a portrait of President Hafez al-Assad and denounced him as a "coward" who should mobilize his forces against Israelis instead of Lebanese.

There were similar protests today at the Syrian Embassies in Moscow and Rabat and at the Paris offices of the Arab League.

"We are against Syrian intervention and invasion of Lebanon," Sakhar Bessiso, president of the Palestinian Students Union here, said.

"Syria was disguised as a progressive country," he said, "but it has lifted its mask and proved itself the most reactionary force in the Arab world."

**300 From Several Nations**

Around him were about 300 student representatives, of both sexes, from Egypt, Lebanon, Bahrein, Yemen, Oman, Jordan, Iraq, the Sudan and other Arab countries.

Maamoun al-Atassi, the embassy chargé d'affaires and one of two diplomats inside the two-story building, said the students entered at 10 a.m., "pulled down a picture of President Assad by force and broke it."

The students displayed Mr. Assad's broken portrait upside-down on the porch, unfurled a Palestinian flag, waved banners and placards denouncing the Syrian troops' intervention in Lebanon and chanted slogans. They left peacefully after three hours.

In Moscow, a group of Arab students gathered in front of the Syrian Embassy with a poster saying: "Hands Off Lebanon." Soviet police on hand did not intervene.

A witness said there were 300 students in the crowd but an embassy official said there were fewer. The students said they were Lebanese and Palestinians.

More than 50 Palestinian students occupied the Syrian Embassy in Rabat to protest Syria's actions in Lebanon.

**No Violence**

There was no violence and Ambassador Mohammed Issam Jaban, who was in the embassy, said in a telephone interview that he had asked Moroccan security forces not to intervene.

In Paris, about 30 representatives from the Palestinian-Arab Student Union occupied the Arab League offices, police said.

A spokesman for the students said the offices would be occupied "for an indefinite period." He said a letter was sent to Cairo to Mahmoud Riad, secretary-general of the Arab League, supporting the request of the Palestine Liberation Organization for the convocation of an extraordinary session of the Arab League states' foreign ministers.

In a telegram to President Assad, the students in Paris urged him to withdraw all Syrian troops from Lebanon immediately. In a telegram to the PLO headquarters in Beirut, they voiced their support "for the efforts used by the Palestinian resistance and the patriotic Lebanese movements to avoid a bloody confrontation with Syrian troops."

### *At Start of Election Campaign*

## West German Parties Jolted By Burgeoning Spy Scandals

BONN, June 3 (AP).—A series of sensational spy arrests has confirmed West Germany's reputation as a playground for Soviet-bloc agents, embarrassing both government and opposition at the start of the election campaign.

In less than three weeks, 16 alleged spies have been arrested in what were seen as two of the most serious spy cases since chancellery aide Guenter Guillaume was caught as an East German agent two years ago. Guillaume's arrest prompted Willy Brandt to resign as chancellor.

Bonn Interior Ministry reports say East German espionage activity has increased in recent years. An unofficial estimate puts the number of East German spies in West Germany's armed forces, unions, federal and state governments and industrial establishment at 12,000.

Four months before West Germany's general election, spy fever again is prominent on Bonn's political scene. These were the developments of the last 18 days:

• The May 16 arrest of a Foreign Ministry woman secretary added a whiff of intrigue to a political spy sensation that tarnished the reputation of a former West German ambassador to Poland, Heinrich Boex.

Helge Berger, 35, was accused of using a close personal relationship with the 71-year-old retired diplomat to extract secrets for her East German courier-lover, causing the opposition Christian Democratic Union to suspend Mr. Boex as head of its Bonn Foreign Affairs Bureau.

• Two days later, a deliberately leaked report over the suspension of a senior Federal Intelligence Service official gave a fresh glimpse at party politics' rivalry and intrigue inside West Germany's espionage establishment.

• On Monday, Hans Paltermeier, an executive board member of the powerful Public Service Workers Union, was sentenced to two years in prison for passing trade union secrets to East Germany.

• In the latest spy case, Siegfried Buback, federal attorney general, confirmed today that surprise raids by security police in seven West German towns netted a ring of 15 East German spy suspects—including three Defense Ministry employees with access to confidential military information.

The three Defense Ministry employees include Renate Lutz, 36, a secretary, who has worked for six years with such senior officials as Under-Secretary Karl Wilhelm Berkhan and members of the command staff at the Hardthoehe, West Germany's equivalent of the Pentagon.

Her husband, Lothar Lutz, was employed in the ministry's Armaments Section Registry Office. Colleague Juergen Wiegel, a secret files clerk in the naval command staff, reportedly had access to classified NATO alliance documents.

This latest espionage case could be a further blow to the prestige of the nation's security

(Continued on Page 2, Col. 4)

## Bolivian Ex-President Is Killed in Argentina

BUENOS AIRES, June 3 (Reuters).—Former leftist President Juan Jose Torres of Bolivia, who was kidnapped here Tuesday, has been murdered, the Argentine Interior Ministry announced today.

The ministry said that the body of Gen. Torres, 56, who had been living here since shortly after he was ousted in August, 1971, was found last night but was only identified today. He had been shot three times in the head.

## Syria Role Protested By Strike In Beirut

*From Wire Dispatches*

BEIRUT, June 3.—A general strike called by leftists to protest Syrian military intervention shut Moslem areas of Beirut today but there was no effort to organize armed resistance to the Syrian forces.

In scattered clashes in Beirut, 60 persons were killed and 100 were wounded during the last 24 hours, but the city was calm again after dawn today.

Tension remained high, however, in western Beirut, where rival Palestinian groups set up roadblocks and demonstrators burned tires to protest Syria's four-day-old military incursion into Lebanon.

No new Syrian troop movements were reported since yesterday, when a Syrian armored column cut southwest across the southern Chouf region of Lebanon toward the leftist-held port of Sidon, 30 miles south of the capital.

**Sidon Is Quiet**

But Western newsmen who toured the region reported that Sidon was quiet and Syrian troops were apparently much farther away than leftist and Palestinian reports had indicated.

In other developments:

• French Foreign Minister Jean Sauvagnargues, after meeting Syrian Foreign Minister Abdel Halim Khaddam in Paris, said that France's offer to send peacekeeping troops to Lebanon still stands. He added that Mr. Khaddam had confirmed that the offer "was perfectly understood in Damascus."

In an interview broadcast by Radio Monte Carlo, Lebanese leftist leader Kamal Jumblat called on France to "come to our aid." In the interview, he again criticized the Syrian intervention. There were reports in Beirut that Lebanese Christian leaders were also planning to ask France to intervene.

• Soviet Premier Alexei Kosygin, speaking in Damascus on an official visit, pledged "complete support" by the Soviet Union for Syria.

• In Algiers, cabinet ministers from 17 nonaligned, mostly leftist nations, issued a communique upholding independence and territorial integrity for Lebanon, at the end of a four-day meeting.

• A Radio Baghdad broadcast said that Iraq opposed any foreign intervention in Lebanon. It was the first official Iraqi comment on the Syrian move.

• In Cairo, Egypt agreed to a proposal for an urgent Arab foreign ministers conference to end the Syrian military intervention, which the Cairo government fears might lead to "a war of extermination." The proposal was made to the Cairo-based Secretariat of the 20-nation Arab League by the Palestine Liberation Organization.

Syria's intervention was fiercely criticized by Egypt, which said that it exceeded "all estimations and justifications."

**Closest Checkpoint**

The Syrian checkpoint closest to Sidon, a small roadblock manned by several soldiers, was at Roum, 10 miles east of the city.

It was evident that the Syrians had advanced close to Sidon but not in sufficient numbers to mount the attack that both leftists and rightists had expected. Rightist sources in close touch with the Syrians still maintained, however, that the troops intended to march on the city, "if not today then over the next few days."

Further north, in the center

## *Political Life Revives in Remote, Backward Galicia Since Franco's Death*

By Henry Kamm

LA CORUNA, Spain (NYT).—Even the remote and underdeveloped region of Galicia has been touched by the flowering of illegal but open political life in Spain since the death of Generalissimo Francisco Franco.

The principal blooms of this flowering, here as elsewhere, are regionalism and Socialism, in all its variants, with an anarchist offshoot in intellectual circles.

The political life of Galicia mirrors that of other Spanish regions in the period of transition from Francoism, with its vigor compensating for the relatively few participants, its growing impatience with the slowness of democratization and the gradual adaptation to change of a power structure hoping to survive.

So strong is this nationalism that all the leftist groupings that have sprung up declare in their names that they are Galician parties. Existing underground groups of national extent have added "of Galicia" to their labels here. This applies even to the traditionally highly centralized Communist party.

And so active and open have leftist politics become in the short span of six months that two representatives of the Communist party walked into the leading hotel of this port city recently, introduced themselves by name and political affiliation and openly discussed the program of the Communists. They paid no heed to those who pricked up their ears to listen.

A number of political observers interviewed in a five-day tour of this region of northwest Spain emphasized the importance of the activity, although it is limited largely to students, the professional classes and organized labor. But about 75 per cent of Galicia's 2.65 million inhabitants are agricultural workers or fishermen.

The division between a passive, conservative countryside and politicized, leftist cities is more pronounced in Galicia than elsewhere in Spain. What provides cohesion between the active and passive forces in the view of political observers, is the common bond of nationalism.

• Madrid politicians predict U.S. speech by Juan Carlos will boost his program for democratic reforms. Page 2.

The Galician language, closer to Portuguese than Castilian Spanish, is spoken by about four-fifths of the population. Only in recent years has it received some recognition, with the authorities permitting it to be used in teaching.

"But it remains an unresolved issue," a Jesuit scholar asserted. "It is nonsense to make children begin their education in Castilian when most arrive in school speaking only Galician. It is not sensible or just."

Any party proclaiming linguistic rights is bound, therefore, to find a sympathetic hearing in the countryside. But unlike the two other major nationality groups with grievances against Madrid, the Catalonians and the Basques, the Galicians do not have the vital support of the Roman Catholic Church.

"The church here has always been conservative," the Jesuit said. "Most priests are not political and most of the bishops are very conservative."

A few, mainly young, parish priests are beginning to follow the Basque and Catalonian example, but even they appear to be far from the radicalism of much of the Basque clergy or the political sophistication of the Catalonians.

The nationalist demands of the profusion of political groupings are limited to autonomy within a federal Spain. No separatist party has appeared. Except among the Communists, perhaps the most numerous party, and those to their left, political feeling tends toward peaceful transition from the Franco period to democracy.

"I prefer transition," said Dr. Domingo Garcia Sabel. "I remember what the civil war was like."

Dr. Sabel, a physician, said that he was an autonomist whose sympathies lay with Socialism. But, in a remark typical of autonomist sentiment here, he said that he would join the Socialist party only when he was convinced it was a genuine Galician party.

"We are an underdeveloped region that is colonized internally," the physician, who is also an anthropologist and writer on literary subjects, said. "The riches of Galicia go to Madrid. Our hydroelectric power is sold to France while many Galician villages are without electricity."

Like many others, Dr. Sabel charged that the savings of Galicians as well as the remittances of Galicians working abroad were transferred to Madrid and invested centrally. The essence of the autonomists' demands is that regional development must be financed with the funds of the region by regional decisions.

The Communists and their strongest allies, the Workers' Commission labor movement, say that they demand "rupture," a complete break with the system Franco left behind. A Workers' Commission leader in El Ferrol, a shipbuilding center and the birthplace of Franco, said that this included the monarchy.

**Hands of the People**

"The King could participate in the political process after rupture," the leader, who preferred not to be identified, said. "But

(Continued on Page 2, Col. 1)

## Swedish Workers Get Veto Right Over Employers

STOCKHOLM, June 3 (AP).—The Swedish parliament today approved government legislation giving the workers a veto on corporate decisions at all levels.

Socialist Premier Olof Palme said the bill was "the most radical and thorough equity reform in this country since universal suffrage was established" almost 60 years ago.

The law takes effect Jan. 1. It provides a framework for the negotiation of local agreements for cooperation. It also requires employers to secure the workers' concurrence on all important changes, including the sale of the company, staff transfers and changes in production or organization.

If agreement cannot be reached, negotiations would go to a national panel and ultimately to the Labor Court.

Under present law, the employer has the sole right to "lead and distribute" work.

*Endorsement of Democratic Rule*

# Madrid Sees King's Speech In U.S. Aiding Reform Effort

MADRID, June 3 (AP).—The pledge of King Juan Carlos before the U.S. Congress to lead Spain toward democracy won praise here today and politicians predicted it would boost the Madrid government's program for democratic reforms.

The speech by the King, 38, who is on an official visit to the United States, was welcomed as his most forceful political declaration since taking power six months ago.

"What the King has not said in Madrid, he said in Washington," a Christian Democratic leader said.

Government sources reported they were delighted with the King's address since they face a crucial test on Tuesday before the rightist Cortes (parliament) over a law to legalize political parties for the first time since the end of the civil war.

"U.S. Congress Receives the King's Speech with Great Enthusiasm," headlined the liberal Catholic newspaper Ya, a persistent advocate of reform. The rightist newspaper Arriba conceded that the King's speech captured Spanish public opinion.

The biggest impact of the King's statements backing democracy, after years of authoritarian rule by the late Generalissimo Francisco Franco, was believed to have been on the millions of Spaniards watching the King's performance live on national television.

"The King also was speaking to Spain," a government official said.

Juan Carlos is limited constitutionally on his political moves at home. But his appearance and speech before a joint session of the U.S. Congress was a clear message to Spaniards of his position on reform.

Ya also noted that the King was applauded eight times by Congress—most heavily when he said his monarchy was committed to "creation of a society ever more prosperous, more just and more authentically free."

The monarchist newspaper ABC called the King's speech one of great authority. The independent newspaper El Pais found Juan Carlos promising "a democratic society," something he has not pledged so clearly in Spain. The newspaper balanced its front page, however, with a report that the government's prosecutor was seeking an 18-year prison sentence for Communist leader Simon Sanchez Montero for "illegal association," a law the government hopes the nonelected parliament will change next week.

## *Political Life Revives Fast In Galicia*

(Continued from Page 1)

he would first have to put the crown in the hands of the Spanish people. The people would have to choose between the monarchy and a republic."

"If the King doesn't accept democratic rupture, he would disappear from the political scene," he continued.

The Communists demand the removal of all present political institutions and their replacement by a provisional government of all forces ranging from "the civilized right" to the Communists.

The government would hold elections for a constituent assembly and supervise a referendum on the Constitution. Within 18 months, a constitution would be adopted and the first general elections held.

The two party spokesmen emphasized the moderation of their party. "We never said we wanted to govern alone," said Angel Gueiro Carrerias, a high school teacher.

"We want no Portugalization of Spain," said Rafael Barez Vasquez, a lawyer. "We don't want a minority of the population to radicalize the situation. We can construct Socialism only with the approval of the great majority of the population.

"We remember the example of Chile, where Socialism was attempted without widespread support. We must maintain all democratic liberties and provoke no economic collapse."

The authorities have met the rise of political activity with a certain amount of tolerance interrupted by occasional arrests and police intimidation. Students find more tolerance than labor.

Among the officials in power, all appointees of the old regime, readjustment of thinking is under way and mayors are preparing to replace official portraits of Franco with those of King Juan Carlos.

## Publisher Seized For Slander on Return to Spain

MADRID, June 3 (UPI).—Police today arrested Rafael Calvo Serrer, a philosophy professor and former newspaper publisher, when he returned to Spain after nearly five years in exile.

The Interior Ministry said that Mr. Calvo Serrer, 60, was charged with slandering the state and its institutions from abroad and will be put at the disposal of the Public Order Court—the political arm of the judiciary—tomorrow.

The charge carries a penalty of up to 20 years in jail.

Informed that there was a warrant for his arrest, Mr. Calvo Serrer told police on his arrival that he wished to remain in Spain and face the charge, the ministry said.

Mr. Calvo Serrer flew to Madrid from Paris, where he had lived since the autumn of 1971 when the government of Generalissimo Francisco Franco closed down his daily newspaper, Madrid.

### Cosmos-823 Launched

MOSCOW, June 3 (UPI).—The Soviet Union today launched Cosmos-823, Tass said.

UPI.

Gino Pasti

## *Communists Get Unusual Help in Italy*

(Continued from Page 1)

anti-Communist pressure and denunciation from Pope Paul VI and Catholic bishops, including the threat of excommunication.

Among those campaigning for the Communists is the Rev. Giovanni Fanzoni, former abbot of the Basilica of St. Paul's Outside the Walls in Rome.

"I am not Marxist. I approve the program pursued by the Italian Communist party, not an ideology," retired Gen. Pasti, 67, said.

Mr. Spinelli, 69, was a Communist in his youth but quit the party in reaction to Stalin's policies. A fervent advocate of West European unity, he said he was attracted by the commitment of the Italian Communist party to a united Europe "neither Soviet nor American."

"It sounds immodest but I think they have come over to me," he said. "I'm not in the least being used by the Communist party."

"With our choice we wanted to express the conviction that it is possible to work together and conduct a politically open debate with Communists," said former editor La Valle, the most prominent Catholic on the Communist ticket. "Being Christian cannot be an obstacle to such a choice."

Gian Franco Vene, a sociologist who quit the Communist party because he said it had sold out to the West, claims many in the middle class have espoused Italian Communism.

He estimated that in the 1968 parliamentary elections, workers and peasants made up 60 per cent of the Communist electorate.

Last year, he said, about 50 per cent of the Communist voters were workers and peasants and 47 per cent were from the middle class.

Mr. Vene said that more and more middle-class voters are turning Communist in reaction to the political instability that is blamed for many of Italy's economic and social problems.

He said domestic issues overshadowed the uncertainty surrounding the Communist party's foreign policy, which he described as in a limbo between the East and the West.

### *Bid to Join NATO*

WASHINGTON, June 3 (UPI).—Spain today made a bid for membership in the North Atlantic alliance, urging its European neighbors to "reassess past positions" and consider the contribution Spain could make to the defense of Western Europe.

The call was made by Spanish Foreign Minister Jose Maria de Areilza at a luncheon given at the State Department by Secretary of State Henry Kissinger in honor of King Juan Carlos and Queen Sofia.

Replying to a toast by Mr. Kissinger, Mr. Areilza, in indirect acknowledgment of the long hostility of many NATO countries to Franco Spain, said that under Juan Carlos Spain intended to "become an industrial democracy."

Mr. Areilza also said that Spain was an essential part of Europe, "economically, politically, culturally and strategically."

"It cannot be emphasized too strongly," he said, "that the political unification of Europe interests us greatly and directly. Its defense strategy, likewise, affects and involves us in an ever-increasing measure."

## *Italian Polls Disagree Over Party Standings*

ROME, June 3 (Reuters).—Leading opinion polls disagreed over the likely results of the June 20-21 Italian general elections.

According to the Demoskopea public opinion institute, the ruling Christian Democrats would get 35.8 per cent of the vote. Communist support was put at 32.4 per cent. The poll, published in the Rome daily La Repubblica, found that the combined left would fall short of a majority, with a total of only 45.4 per cent.

This finding was contradicted by the Pragma opinion poll, which said that the combined left would gain a majority, with nearly 53 per cent of the vote.

Pragma, whose poll was published in the weekly L'Espresso, found that the Communists would win 34.5 per cent of the vote and the Christian Democrats 27.6 per cent. The poll was taken earlier than the Demoskopea survey.

## *Grocery Bills Rise in Vatican*

VATICAN CITY, June 3 (UPI).—The cost of living in the Vatican went up today when the papal state's supermarket raised prices of items ranging from pasta to meat and liquor, Vatican sources said.

Vatican officials had no comment on the raise, apparently an effect of inflation in Italy. Even after the raise, however, Vatican prices remained lower than those in Italy.

The Vatican supermarket is reserved for the papal state's 350 citizens and 3,000 employees. The price of pasta went up from 330 to 400 lire a kilo (from 17.5 to 21 cents a pound); a half-kilo of coffee from 1,400 to 1,900 lire ($1.64 to $2.23).

Joining Swiss, Swedes

# *Norway Is 3d in OECD to Top U.S. in Per Capita Income*

By Don Cook

PARIS, June 3.—Norway has joined Switzerland and Sweden in surpassing the United States in average per capita income, according to the Organization for Economic Cooperation and Development (OECD) in its regular annual statistical analysis of its 23 members.

At the end of last year, Switzerland led the industrialized world in national income with an annual per capita average of $8,375. Sweden was second with $8,308 and Norway was third with $7,033. The United States was in fourth place with $7,018. A number of the oil-producing states in the Middle East are also well ahead of the United States in per capita income, but the OECD statistics cover only the leading industrialized nations.

Norway's economic performance in pulling ahead of the United States is particularly remarkable because the major impact of its oil revenue from the North Sea is forthcoming. Norway's North Sea oil revenue last year amounted to $50 million. This year it will leap to $400 million and it is expected to reach $3 billion by the 1980s.

Per capita income is not an entirely realistic economic indicator because it does not reflect purchasing power or inflation levels.

But it is a good an index as any of the growing wealth of the industrialized world and the relative economic performances of the OECD states.

In addition to placing high in per capita income, Sweden and Norway are also near the top of the list in taxation. Sweden recovers 42.4 per cent of its total gross national wealth in taxes and social security charges, and Norway takes back 48.5 per cent from its citizens. The figure for the United States is 30.2 per cent. But the highest-taxed people in the industrialized world are the Dutch, whose government takes back 51.4 per cent of gross national income in taxes and social security levies.

Spain, with a per capita income of $2,100, one of the lowest in Western Europe, nevertheless leads in tourist receipts. As Europe's favorite holiday resort, Spain took in $3.2 billion from its visitors last year, with France second at $2.6 billion and Austria third at $2.3 billion.

### Farming Populations

Ireland tops the list in Western Europe with the largest farming population percentage in relation to the total work force, 24.3 per cent. Turkey, where 64 per cent of all workers are farmers, leads all 23 nations in this category. Britain's farm population percentage is the smallest, 2.8 per cent. The U.S. farm population is 4.1 per cent of the total labor force.

In some of the other categories of statistics gathered by the OECD, the French are Europe's biggest meat-eaters, averaging 67 grams of animal protein per person per day. But this is topped by New Zealand, with 74 grams; the United States, 73 grams, and Australia, 69 grams.

The U.S. public has the most television sets per capita (523 per 1,000 inhabitants) and telephones (657 per 1,000). Sweden is tops in both these categories in Europe, with 339 TV sets and 594 phones per 1,000 persons.

Norway, as befits its increasing national wealth, is the leader, excepting the United States, in higher education. Of its university-age population, 39.2 per cent are attending school, compared with 35 per cent in Denmark, 31 per cent in Sweden and 26 per cent in France. The U.S. figure is 44 per cent.

Sweden has the lowest infant mortality rate in the industrialized world, 9.6 per 1,000 births. The figure for Turkey is 153 per 1,000 births. The United States is about average, with 17.6. Finland had the lowest population increase among the OECD members last year—three-tenths of one per cent. But the actual birth rate was lowest in West Germany—10.1 births per 1,000 inhabitants, compared to 14.9 in the United States.

## Bonn Jolted By Spy Cases

(Continued from Page 1)

services, subjected to extensive criticism and close scrutiny after Guillaume's arrest in April, 1974.

A parliamentary inquest into the Guillaume scandal disclosed laxity within the Cologne-based National Security Agency, the Federal Office for the Protection of the Constitution—BFV—and poor BFV coordination with the Federal Intelligence Service in Munich.

BFV chief Guenter Nollau, who was close to Chancellor Helmut Schmidt's Social Democratic party, took early retirement under fire last September. His successor Richard Meier, 47, a career intelligence officer, publicly criticized the security agency's past involvement in party political affairs.

However, the new broom drew little comfort from the Berger case. West German newspapers claimed that authorities did not act against the alleged woman spy when, as far back as 1973, an office secretary at CDU party headquarters informed them of suspicious telephone conversations between Mr. Boex and Miss Berger.

The espionage affair "again reveals the entire extent of the ineptitude, carelessness and negligence . . . if not far worse" in the internal security agency, the ruling SPD's weekly newspaper Vorwaerts commented.

Fearing that Mr. Boex's alleged involvement could backfire on them at the start of their election campaign, the Christian Democrats played down the affair.

Two days after Miss Berger's arrest, conservative newspapers reported that a former Social Democrat, Juergen von Alten, 42, head of the analysis section at the Munich-based Federal Intelligence Service, had been suspended as a possible security risk.

The newspaper Bild Zeitung said that Mr. Von Alten, too, had a close personal relationship with Miss Berger. Mr. Von Alten denied the charge.

Informed sources said Mr. Von Alten was suspended four weeks previously, allegedly because his social activities in Munich overstepped agency security rules.

## *Intelligence Aide Seized in Italy In Killing of Red*

ROME, June 3 (UPI).—Magistrates ordered a military intelligence agent arrested today on charges of aiding and abetting the killers of a young Communist at a rightist election rally.

The arrest warrant charged Francesco Troccia, a noncommissioned officer in the Defense Intelligence Service (SID), of aiding and abetting, failing to perform his duties and giving false testimony.

Witnesses said that Mr. Troccia, 40, was with neo-Fascist Parliament member Sandro Saccucci during an election rally in Sezze last Friday which ended in the fatal shooting of 20-year-old Communist Luigi di Rosa.

They said that Mr. Troccia drove one of two cars in which MSI members left the town after the shooting and that he later had dinner with Mr. Saccucci and other rightists.

Magistrates have notified Mr. Saccucci that they are investigating him on suspicion of murder, attempted murder, carrying and using firearms during a public gathering. He has not been heard of since police prevented him from crossing into Switzerland Tuesday.

## *'Dictatorship' Not Aim Of Japan Communists*

TOKYO, June 3 (Reuters).—The terms "dictatorship of the proletariat" and "Marxism-Leninism" will disappear from the language of Japanese Communism, party officials said today. Instead, its policy will be called "scientific Socialism."

The decision, by the Central Committee of the Japan Communist party, must be approved at a party convention next month. The French Communist party early this year dropped the phrase "dictatorship of the proletariat" from its lexicon.

Map shows recent Syrian thrusts into Lebanon.

## *Syrian Drive Protested by Beirut Strike*

(Continued from Page 1)

of the Bekaa Valley, where the bulk of their 4,000-man force is stationed, the Syrians made no attempt to advance beyond the front-line positions they established yesterday—three miles east of the leftist-held Dahr al-Baidar hilltop guarding the main pass leading across the mountains to Beirut.

In the capital, trucks with loudspeakers toured Moslem areas calling for a "general mobilization" to confront the Syrian invaders and a continuation of the general strike.

### Resistance Urged

Lt. Ahmed Khatib, leader of the rebel Lebanese Arab Army, called a news conference to proclaim his leftist force's determination to "resist this and any other occupation, wherever it comes from."

He called for a mass march to the Bekaa Valley and a sit-down strike there until the last Syrian soldier withdraws.

Lt. Khatib, drawing a distinction between Syria's rulers and its army, appealed to Syrian soldiers "to turn toward the Golan and preserve the center of modern Arab land in Lebanon."

But after four days of unhindered advances that gave the Syrians control of the northern and eastern regions of the country, there was skepticism among most observers that the leftists would act.

### No Power

Except for hospitals, radio stations, the airport and those with their own generators, Beirut has been without electric power since last night, when the sole remaining power line to the city was cut by artillery fire.

### Jumblat Briefs Allies

Mr. Jumblat met with his allies to brief them on the outcome of a meeting he held with Christian rightist militia leader Bashir Gemayel yesterday. President-elect Elias Sarkis, who also met Mr. Jumblat, conferred with Christian leaders to brief them on the outcome.

The Jumblat-Gemayel meeting held out hope that a Lebanese solution may be reached to forestall further Syrian intervention in the 14-month-long civil strife.

Leftist sources said the two sides had agreed "in principle" on the need for a cease-fire, the withdrawal of the Syrian troops and the start of talks to draft political reforms that would be the basis of a peace settlement.

Meanwhile, French photographer Catherine Leroy was released by leftist gunmen who had dragged her from a restaurant in western Beirut last night.

In Beirut this morning, two jet fighter planes flew low over the capital and drew fire from Palestinian gunners who apparently thought they were Syrian MiGs. But Damascus Radio said later the planes belonged to a remnant of the Lebanese Army that remained neutral in the civil war and is supporting Syria's peace initiative.

Associated Press.

PRESIDENTIAL DRAPEAU—Valéry Giscard d'Estaing's own version of the French Tricolor, with the Roman fasces symbol, is currently flying at the Elysée Palace in Paris. Presidents Charles de Gaulle (Cross of Lorraine) and Georges Pompidou (initial) also had personalized flags, as did earlier presidents, to mark their presence in the office.

## Lisbon Assembly In First Session Since Election

LISBON, June 3 (Reuters).—Portugal's first freely elected legislative assembly in half a century began work today with a brief opening session devoid of pomp. Its only task was to appoint a committee to check the deputies' credentials.

The low-key occasion contrasted with the swearing-in of a constituent assembly last year. Then the neoclassical 19th-century debating chamber was filled with uniformed military officers and President Francisco da Costa Gomes made a speech.

The absence of ceremony today illustrated the partial withdrawal of the armed forces from politics. Under the Constitution drawn up by last year's assembly, prime responsibility for government passes to a civilian regime based on the 263-seat parliament.

The military will continue, however, to exercise considerable political influence behind the scenes through the Council of the Revolution. This body will continue in a watchdog role, headed by the new President of Portugal due to be elected June 27.

The new chamber has 107 Socialists, 73 centrist Popular Democrats, 42 conservative Center Democrats, 40 Communists and one member of the far-left Popular Democratic Union.

*Resistance Is Light*

# The Guns in Zahle Fall Silen As Syrian Tanks Break Sieg

By Douglas Watson

ZAHLE, Lebanon, June 3 (WP).—For the first time since winter, the guns are quiet here after about 100 Syrian tanks ringed this Christian-dominated city and broke its three-month siege by Moslem and leftist forces.

With the Soviet-built tanks lined up on a ridge that overlooks this city of 120,000 and the adjoining Bekaa Valley, residents brought in carloads of bread and lettuce. It was the first time in months that the people of Lebanon's fourth-largest city could travel to other parts of the country.

"Today we are very glad," Janet Dawood said. "We thank God."

The camouflaged tanks clanked across the narrow valley at about 3 a.m. Tuesday from positions on the Lebanese side of the Syrian border, where most had been dug in for weeks.

### Voices Are Heard

"We were sleeping and we heard voices and the tank treads on the highway," said a shopkeeper in Chtaura, a Moslem town a few miles from Zahle on the road between Damascus and Beirut.

"We were expecting that one day they would come, because we wanted any force to come to restore peace," said the shopkeeper, a Christian.

There was minor resistance and, reportedly, a few casualties Tuesday morning in brief clashes between Lebanese leftist forces and about 2,000 members of Syria's regular army.

But by noon no more shots were heard in Zahle and, despite claims by Lebanese leftist leader Kamal Jumblat, there was little resistance anywhere in central Lebanon to the Syrian incursion.

### Column Splits Up

Residents at Chtaura said the tank column split up there with some turning north toward Zahle and others continuing east, up the mountain highway. These went only three miles past Chtaura and were not in a confrontation with leftist forces.

Another column of Syrian tanks headed south in the valley and then across the Mount Lebanon range to the vicinity of Sidon, a port city on the Mediterranean.

People in Chtaura said 200 tanks had passed through the town but this may be a considerable exaggeration or include other armored cars. A Western diplomatic source said he estimated the number of Syrian tanks at closer to 100.

Most of the leftist units—lacking professional training and including many teen-agers—evaporated before the Syrian Army and its armor. A resident of Chtaura said that the Kalashnikov machine guns the leftists relied on "were hidden immediately."

Instead, a visitor to the town yesterday found pictures of Syrian President Hafez Al-Assad on display.

In Zahle, a defender said: "Zahle, city of heroes. Everybody now has a gun, two guns or three guns. I have 12."

Under the orange tile roofs of the mountainside city, almost every house is pockmarked by bullets and many holes have been punched in the thick walls by shells fired from the surrounding ridges.

A four of Zahle's narrow, winding streets led to a rebel bunker overlooking a Moslem village, Kerak, whose nearest houses are only 100 yards from Zahle. Fierce battles have cost Kerak residents to flee, and the village is a shattered casualty of the civil war.

Farther up the road, at the top of the ridge, were the tanks their crews keeping machine guns trained on visitors. The Syrian troops seemed well under control for what they said is a peacekeeping mission.

But the Syrian presence, though it is being welcomed by many Lebanese now, could become a sore point. As the Chtaura shopkeeper said: "If the Syrians want to make peace here, I say welcome. But if they want to occupy Lebanon, they will be having trouble from both sides."

## *Khaled to Buy Jumbo Jet for His Own Use*

BEIRUT, June 3 (AP).—King Khaled of Saudi Arabia may soon be the only chief of state with his own jumbo jet. An aircraft industry source said that Khaled is dickering for a Boeing 747SP, slightly shorter than the regular model and with a longer range.

The jet will have a surgery as well as living and working compartments. Those facilities, luxurious fittings and special communications equipment will bring the price to about $100 million, double the usual cost, the source said.

Khaled now travels in a Boeing 707 bought last year.

The 747SP is part of a $300 million package that also includes eight Boeing and Lockheed jets to increase Saudi Arabia's civil aviation fleet, the source said. Contracts with the two manufacturers have not been completed.

## *Copenhagen Is Doing Its Be To Make Aged Feel at Hom*

By Gregory Jensen

COPENHAGEN, June 3 (UPI).—When Lars Nielsen retired, the first thing he did was to give up his old-age pension.

He traded it for the Old People's Town, Copenhagen's way of trying to make old age dignified, satisfying and complete.

"Our first priority is to provide proper care," said Henning Blume, a city official, on a tour of the town within a city. "But the very next one is to make it like home."

The Old People's Town—"De Gamles By" in Danish—is an institution that doesn't look or act like one.

It is a self-contained town—with church, library, movie theater, concert hall, hospital and apartment buildings. Traffic flows through its streets—bicycles and cars belonging to the enormous staff. Its scattered buildings are set among gardens in a 26-acre sector in northwest Copenhagen.

For pensioners like Mr. Nielsen, the 57-year-old town—once a prison workhouse—has been turned into a place where much that goes toward a senior citizen's comfort, well-being and self-respect is provided free.

There are no rules, no locked gates at night. All clothes—not uniforms—are free. Pocket money is provided. Each apartment house floor has a kitchen and a book-stocked lounge. Meals are at individual tables with afternoon coffee or tea delivered to the rooms.

In the rooms are the pensioners' own furniture, tables and pictures cherished during a lifetime. "We supply the bed," Mr. Blume said.

"There are clubs, handicrafts, outings, concerts, every kind of activity," said Mr. Blume, who is vice-director of social welfare for the city.

"We have hairdressers to keep the ladies looking their best. They can have a telephone in their rooms if they want, or a radio or television. And of course there is every facility for geriatric care.

"The average age of patients here is 87," Mr. Blume said. "Morale, you might say, is very high."

There is also, unsurprisingly, a waiting list. It got so long for the 1,450 places in the Old People's Town—its patients outnumbered by 1,500 doctors, nurses and staff members—that Copenhagen built another one.

The second town, on the city's northern outskirts, resembles a modern apartment complex. Again, its 835 staff members outnumber the 783 senior citizens who live in its mixture of single rooms and small apartments for married couples.

Bystaevnaeparken, as the sprawling center is called, was opened in 1971. Its facilities are even more complete and modern than those of the Old People's Town.

"But the feeling now is that these places may be too big," Mr. Blume said. "Some feel old people should not be separated, should stay within the community.

"So for the last five years or so the emphasis has been on what we call protected dwellings."

Under this system, he said, the city does everything it can to keep a pensioner in his own home.

It pays his rent. If necessary it will remodel his home, installing elevators and other equipment such as wheelchair ramps. It provides cleaners, cooks, visiting nurses. Copenhagen—with a population of 600,000 of all ages—now has 7,300 such protected dwellings.

But some people, Mr. Blume said, do not want to be on their own. "Many prefer the company of other old people," he said. "For these we have Bystaevnaeparken and the Old People's Town. These places are not quite like having your own home but they are not like institutions either. We hope they are the best of both."

## Athens Sentences 30 For Roles in Rioting

ATHENS, June 3 (UPI).—A court of misdemeanors yesterday convicted 30 persons arrested during last week's labor riots on charges of insulting authorities and attacking policemen and sentenced them to prison terms ranging from 5 to 24 months.

The court acquitted seven defendants charged with playing a leading role in the violent demonstrations against a labor relations bill which prohibits politically motivated strikes.

The riots resulted in the death of one woman and injuries to more than 150 persons, most of police who were attacked by striking construction workers and leftist youths.

# Zable Ford Studies anks Draft Law to imit Busing

## ill to Restrict Action o Correcting Abuses

By John M. Goshko

ASHINGTON, June 3 (WP). resident Ford met with Attor- General Edward Levi and er Cabinet officers yesterday discuss legislation that would it court-ordered busing to the rection of school segregation sed by official actions.

hite House Press Secretary Nessen confirmed that Mr. had presented at the two- r meeting a draft bill prepared he Justice Department. Also ng part in the meeting were id Mathews, secretary of th, education and welfare, and Usery, secretary of labor.

owever, Mr. Nessen said that Ford was not yet ready to de on the specific proposal ill send to Congress. Mr. Ford plans to talk with civil rights congressional leaders, Mr. en said.

r. Ford also reiterated earlier ments that he wants a bill would block federal courts ordering busing throughout e school districts to correct ted instances of officially ted segregation.

**Meets N.J. Newsmen**

a meeting at the White se with reporters and editors New Jersey, Mr. Ford said: here have been some cases e the local district court has d violations of constitutional s. The court has then gone and taken over the whole ol district rather than try to dy the limited area where e was segregation within a ol district."

a 1971 case, involving Char- N.C., the Supreme Court that busing was a proper dy to correct school segrega- imposed by such official ns as the drawing of school ict boundaries or the assign- of pupils and teachers.

wever, the high court has found unconstitutional school egation that results from ing patterns of different l groups within a school m.

his recent statements, Mr. has been saying that busing ld be applied only to those nces of *officially created* egation spelled out by the 1971 ion and should not be ex- ed to correct other racial lances that may exist within *ame system due to residential* erns.

# rd Signs Bill i Pact Oversight

ASHINGTON, June 3 (AP).— dent Ford signed into law a measure creating a 15- ber commission to monitor rence to the European secu- agreement signed in Helsinki August.

e law establishes a *Com*- on on Security and Coopera- in Europe to monitor actions e 35 nations that signed the and determine whether the *ement is being violated.* The nission will consist of three idential appointees from the utive branch, six senators six representatives.

e Helsinki pact signatories pted the postwar map of pe and agreed that national ders shall be "inviolable" ss changed by peaceful ns. The pact also pledges icipating nations to promote eer flow of information and de between East and West.

# ns Ban Alcohol Ads

ELSINKI, June 3 (Reuters).— lament here has passed a law ing the advertising of alco- beverages in Finland. Trade foreign publications are ex- ted.

## GRADUATION DAY

**The current cheating scandal notwithstanding, West Point cadets were jubilant, while an Air Force officer appeared bored as the four major U.S. service academies held graduation ceremonies on Wednesday.**

# 2 Other Academies Differ on West Point Code

By Robert McG. Thomas Jr.

NEW YORK, June 3 (NYT).—The cheating scandal that has rocked the U.S. Military Academy at West Point, prompting renewed calls for a modification of the tough cadet honor code, has produced divergent reactions at the nation's two other major service academies.

At the Air Force Academy in Colorado Springs, where the honor code is patterned after the one at West Point, cadets and academy officials who were interviewed strongly supported strict enforcement of the code, including the key provision that requires cadets to turn in fellow students who lie, steal or cheat.

But at Annapolis Md., where the Naval Academy has no honor code and midshipmen are not obliged to report cheating by colleagues, there were expressions of sympathy for West Point cadets caught up in what many Navy men consider the Army's overly rigid and unrealistic approach to integrity.

"So a person makes a mistake," Midshipman John Simmons of Mobile, Ala., said. "He shouldn't be persecuted for life."

Midshipman Simmons's attitude reflects official policy at the Naval Academy, where an "honors concept" treats integrity much like an academic subject that must be learned.

**Not Punitive**

"The honors concept is a training opportunity" explained Rear Adm. Kinnaird McKee, the Naval Academy's superintendent. "It is not a punitive thing. It is a responsibility we expect the midshipmen to accept with a blend of sensitivity and toughness."

As practiced at Annapolis, however, the honors concept seems to produce more sensitivity than toughness. It offers alternatives to turning in a fellow midshipman, including counseling and discussion.

The academy's approach to cheating has become even less harsh since a 1974 scandal in which seven midshipmen resigned after an investigation of cheating that involved as many as 200 students. The investigation was touched off by complaints from instructors but since then even they have been relieved of the obligation to report cheating.

The head of the Air Force Academy, Lt. Gen. James Allen, is a West Point man when it comes to honor.

**'Acceptable Behavior'**

"If we do away with the code," *said Gen. Allen, a 1946 graduate* of West Point, "then one would be asserting that lying, cheating and stealing are acceptable behavior. And I don't think anyone *would want to put himself in* that position."

The Air Force Academy, like West Point, deals strongly with those who violate the honor code's provisions *against lying, stealing* or cheating or, more importantly, "tolerate those who do."

In three major cheating scandals, the first of which was in 1965, when 109 cadets were dismissed, the academy has forced the resignation of honor code violators—39 within a week in 1967 and 34 in 1972.

A few weeks ago, during the widening scandal at West Point, six Air Force Academy cadets were quietly forced to resign after they admitted to a cadet honor board that they had cheated on an examination.

**Academy Criticized**

The Naval Academy was criticized by its civilian instructors a few years ago when it inflated grades rather than accept a failure rate that was incompatible with the Navy's manpower needs.

Adm. McKee contended that because deep personal integrity was more important for a ship's captain than for any other military officer, the Naval Academy developed its "honors concept" as the best way of instilling honesty in its officers.

"What we do here," Adm. McKee said, "builds trust and honesty. Our effort is to start the *midshipmen toward that goal. It* is hard to say how well we do."

# Mistake by Firm Delays Flu Shots

WASHINGTON, June 3 (AP).—The government is being forced to delay its swine flu vaccination program for four to six weeks because a pharmaceutical company made 2 million doses of the wrong vaccine.

The mistake was made by Parke Davis & Co., the U.S. Public Health Service said yesterday. It will push back the government's plans to provide the first shots to high-risk elderly and chronically ill persons until late next month. Congress has appropriated $135 million to produce 200 million doses of swine flu vaccine to protect most of the U.S. population against the swine-type influenza virus.

# Economic Summit Set June 27, Ford Says

WASHINGTON, June 3 (AP).—President Ford announced today that six major industrialized nations will join the United States in an economic summit conference June 27-28 in Puerto Rico "to chart a course to keep the recovery moving forward."

Mr. Ford said that Canada, France, West Germany, Italy, Japan and Britain will participate in the session, which is a follow-up to a conference last November in Rambouillet, France.

# Hays Quits Panel Helm Pending House Probe

By Robert Siner

WASHINGTON, June 3 (IHT).—Rep. Wayne Hays, D-Ohio, resigned temporarily as chairman of the House Democratic campaign committee today until investigations of his sex scandal are over.

A fellow congressman said Rep. Hays told him that he will also step down temporarily as chairman of the House Administration Committee.

Rep. Hays, under pressure to resign the two positions, said he stepped aside as head of the *House Democratic Congressional* Campaign Committee because he did not want to become a liability to his colleagues.

Rep. John Dent, D-Pa., a member of the Administration Committee and a friend of Rep. Hays, said the hard-pressed congressman told him he would relinquish his position as chairman until the investigations are completed.

**Best for the House**

"He knows it would be a handicap to the committee for him to continue under these circumstances," Rep. Dent said. "He wants to do whatever is best for the House."

Rep. Dent said Rep. Hays will meet with the committee Wednesday to discuss his decision. He said he and Rep. Hays did not talk about a temporary chairman to head the committee while Rep. Hays fights charges that he put Elizabeth Ray on the federal *payroll to serve as his mistress.*

In a carefully worded statement, Rep. Hays said that he was giving up control of the campaign panel to avoid placing "an unnecessary and unwarranted burden on my fellow Democratic candidates."

He explained that "to have my name on a [campaign] check might be used as a campaign issue against any Democratic candidate."

As chairman of the campaign committee, Rep. Hays signs checks that the panel gives to Democratic candidates for the House.

"Although the charge against me has yet to be substantiated *by credible evidence,"* Rep. Hays said, "I am confident that when all the facts are presented at the proper time and in the proper forum, it will be obvious that *the charges against me are false."*

His statement was issued a day after the House Ethics Committee voted to investigate the allegations immediately. In addition, *House Majority Leader* Thomas O'Neill, D-Mass., called on Rep. Hays to resign both of his committee chairmanships, warning that, if this were not done, the House Democratic Caucus would probably strip Rep. Hays of both posts at its next meeting on June 16.

Today, the Ethics Committee voted, 7 to 1, to meet behind closed doors to decide how to proceed with its investigation. Its chairman, John Flynt, D-Ga., said that the session would be closed because the committee "very definitely" would discuss more names than just Miss Ray and Rep. Hays.

Panel member James Quillen, R-Tenn., said, "We will discuss some names we might want to call as witnesses." Rep. Quillen offered the resolution to begin the investigation.

In calling for a closed meeting, *Rep. Floyd Spence, R-S.C., said,* "I'm not going to mention information I have in public session."

He was echoed by Rep. Flynt, who explained, "I may be prudish, but there are some things and some words I don't want to use publicly."

Rep. Charles Bennett, D-Fla., however, called for open hearings, saying, "We are not going to be talking about testimony per se; we are not really confronted with filthy, dirty four-letter words. We are confronted with acts that can be described delicately."

Rep. Hays, in a speech on the House floor, admitted that he had a "personal relationship" with Miss Ray but denied her charges that her only duties were to provide him with sex.

Besides the House Ethics Committee, *a federal grand jury is* looking into the charges.

**Ray Tapes Denied**

WASHINGTON, June 3 (AP).—One of Miss Ray's lawyers yesterday called "absolutely untrue" a published report that she has told federal agents she used a tape recorder in her bedroom during trysts with 13 representatives and 2 senators.

In a copyrighted story, the Chicago Tribune said Miss Ray told federal investigators that her tape recorder was voice activated and under her bed. The newspaper said her taping also included morning-after phone talks in which the congressmen were tricked into discussing love making.

The Tribune said the recordings included:

- "A well known senator whose pillow talk in Miss Ray's apartment revolved around the adventures of his grandchildren.
- "A congressman, whose name is a household word, who talked compulsively while he was with her.
- "One House committee chairman who asked the 33-year-old woman to submit to bondage during their liaison."

The newspaper also said Miss Ray told the investigators she dated David Kennerly, who is White House photographer for President Ford.

Mr. Kennerly said he had one date with Miss Ray about two years ago. He added, "I'm probably the only single guy she ever went out with."

# Arabs at ILO Push Seating Of PLO Group

GENEVA, June 3 (Reuters).—The International Labor Organization's annual assembly was involved in a dispute today about seating the Palestine Liberation Organization as an observer to a major ILO-sponsored conference starting tomorrow.

Assembly chairman Michael O'Leary, Ireland's labor minister, told newsmen that the assembly was bogged down in legal arguments over interpretation of a resolution last year. The resolution gave official observer status to liberation movements recognized by the Arab League and the Organization of African Unity.

Arab League members informed Mr. O'Leary yesterday that they sought PLO participation at tomorrow's world employment conference, which is to run separately but concurrently with the assembly.

The Arabs threatened to take *unspecified retaliatory measures* if their demand was not met, Mr. O'Leary said.

OAU members today handed Mr. O'Leary another message asking for observer status at the employment conference for African liberation movements such as the South-West African People's Organization.

**Arab Demand Firm**

Moroccan Labor Minister Mohammed al-Arbi Khattabi said today that Arab countries would *not accept a rejection of the Arab* League demand concerning the PLO.

"We will retaliate in the way that we think fit," he said.

U.S. chief delegate Daniel Horowitz said that Washington was firmly against accepting the Arab demand. He added that there was no need for further discussion because the ILO's governing body last Saturday decided not to give the PLO observer status at the employment conference.

A dispute among ILO member governments over an ILO request for an extra $20 million to meet budget shortfalls caused by inflation also remained unsettled today.

The governing body's finance committee decided to hold a special meeting next week to discuss the issue further.

## Canada-EEC Accord

OTTAWA, June 3 (Reuters).—External Affairs Minister Allan MacEachen said yesterday that Canada and European Economic Community negotiators have signed an agreement calling for economic and commercial cooperation.

# Policeman Slain In Belfast Street

BELFAST, June 3 (UPI).—A policeman shot in the head outside the Royal Victoria Hospital in the Roman Catholic Falls Road area yesterday died shortly after undergoing emergency surgery, police said.

The policeman, in civilian clothes, had gone to the hospital to fetch his elderly mother from the outpatients section when a young gunman walked up and fired several shots from a pistol at him at close range.

Earlier in the day, woman police reservist Linda Baggley, 19, who was shot and critically wounded in Londonderry 10 days ago, died in a hospital. She was the second policewoman killed *since the violence in Northern* Ireland began in August, 1969.

# Congressman Indicted In Aliens Bribe Case

NEWARK, N.J., June 3 (AP).—Rep. Henry Helstoski, D-N.J., indicted on charges he took $8,735 in bribes from South American aliens seeking congressional favors, says the charges are untrue and predicts he will be exonerated. Rep. Helstoski and three associates were named yesterday in a 12-count federal grand jury indictment.

The indictment said that between 1967 and last year, Rep. Helstoski conspired to take payoffs from eight Chilean and Argentine visitors, or their lawyers, to arrange permanent residence status for them. The payoffs allegedly brought introduction of special bills in Congress to stop deportation proceedings against the aliens.

Dresdner Bank, your international partner reports on 1975

▪ 22 per cent growth in group business volume
▪ extraordinary international expansion

The extension of Dresdner Bank in the past few years with new branches, offices and affiliations throughout the world resulted in a considerable increase in business.

Dresdner Bank expanded its international activities despite shrinking world trade. The outstanding performance of Dresdner Bank's subsidiaries made a major contribution to the bank's business development. The Compagnie Luxembourgeoise de Banque SA (CLB) with an increased activity of 50 per cent – principally in international credit and monetary transactions – deserves special mention. Deutsch-Südamerikanische Bank (DSB), specializing in financing trade with Latin America, increased its business volume to over 3 billion DM.

Cooperation with our partner banks in the Associated Banks of Europe Corporation SA (ABECOR) was steadily intensified. ABECOR with a total of 400 billion DM bank assets is the largest international group of this kind.

With a background of 100 years of experience in international banking Dresdner Bank is active all over the world in more than 50 countries.

Branches in Chicago, London, Los Angeles, New York, Singapore, Tokyo, Panama (DSB).

Representative offices in Asunción, Beirut, Bogotá, Buenos Aires, Cairo, Caracas, Istanbul, Johannesburg, La Paz, Lima, Madrid, Mexico, Montevideo, Moscow, Panama, Paris, Quito, Rio de Janeiro, Santiago de Chile, São Paulo, Sydney, Tehran.

Call on us at Dresdner Bank.
You'll find the international banking partner your business needs.

Head Office: Dresdner Bank AG,
7-8 Gallusanlage, 6 Frankfurt/Main
Telephone: 2631, Telex: 4-1230

# $432 Million in Vietnam Aid Urged by UN Survey Team

UNITED NATIONS, N.Y., June 3 (WP).—A team of United Nations experts has recommended to Secretary-General Kurt Waldheim that the UN undertake a campaign to generate $432 million in aid for Vietnam.

The recommendation is contained in a report kept secret by the UN for more than two months because of what a UN official called "the delicate political relationship" between the United States and Vietnam.

The Ford administration has firmly opposed aid for Vietnam. Although Washington could not block a UN assistance appeal, such an appeal could upset the already rocky relationship between the United States and the UN.

The report was written by a four-man team that toured Vietnam in March. The team was headed by Victor Umbricht, a Swiss International Red Cross official who ran the UN aid program for Bangladesh several years ago.

**U.S. Political Situation**

According to UN officials, release of the document was delayed because "the United Nations cannot ignore the sensitive political situation of the United States, its largest contributor, in respect to Vietnam, which is complicated by the forthcoming [U.S.] presidential election."

The 87-page report was given to the U.S. mission here yesterday and is to be distributed to UN delegations today.

The aid program envisaged in the report would be intended to help the Vietnamese rebuild their railroad system and resettle 8 million persons.

The report said it is "essential" for the international community to provide the aid to Vietnam, because "the lack of such outside support will doom the country to great distress for many years to come."

**Public Appeal Likely**

UN officials said that Mr. Waldheim is anxious to involve the UN in coordinating the aid effort and that he is likely to appeal publicly for funds and set up a UN office to run the project.

The UN team, in its analysis, concluded that "it is perfectly legitimate" for the Vietnamese authorities to seek to resettle some 8 million unemployed persons now living in urban areas, including soldiers of the former regime and their families.

It said the resettlement could be in agricultural areas of the Mekong Delta and the Montagnard Highlands that are arable but were either abandoned during the war or were never under cultivation.

The shift of population thus endorsed by the UN team would involve the "officially encouraged" resettlement of more than a third of the estimated 22.5 million residents of South Vietnam.

**Supplies Imported**

To achieve this, the UN report said, "all equipment and additional supplies must be imported" and paid for by an international fund-raising effort at a cost of $142 million.

In addition, the report agreed with the Vietnamese priority for reconstructing the rail line between Hanoi and Saigon, and other transport needs, at a cost of $290 million in international aid.

The report cautioned that all this new aid must be in addition to assistance already flowing into Vietnam from other countries and from four UN agencies.

## *Editorial Staffs Striking Against Time Publications*

NEW YORK, June 3 (NYT).—Members of the Newspaper Guild of New York began a strike last night against Time magazine and its sister publications, Sports Illustrated, People, Money and Fortune magazines and the Time-Life book division.

Immediately after the strike began, Donald Wilson, vice-president for corporate and public affairs of Time, Inc., said, "We are going to put out all the magazines—and all on time." Book publishing would also continue, he said.

The guild represents 1,052 employees, all in editorial operations. Its action was the first strike against the company's magazines since Time, Inc., was set up in 1922.

The major dispute was over wage increases and how they should be apportioned. But Harry Fisdell, executive vice-president of the New York Guild, charged the company with "union-busting."

Mr. Wilson denied any effort to break the union and said that there was "a difference in philosophies." He said, "The company believes that too much emphasis has been placed on purely mathematical formulas and not enough emphasis on individual merit," and that "creativity is so important."

He said that the company had offered a pool increase in payroll close to what the union had demanded, but that much of the increase would be allocated at the management's discretion.

### Italian Smoking Ban

ROME, June 3 (UPI).—Italy's new law banning smoking in nearly every enclosed public place went into effect yesterday.

United Press International.

**PARIS BLAST—Charred remains of a building in central Paris that housed a temporary-employment agency following explosions and fire that claimed four lives yesterday. Two bombs at a suburban employment agency were defused later and flyers found nearby denounced exploitation of workers.**

## OAU Condemns Sale of Reactors To South Africa

ADDIS ABABA, June 3 (Reuters).—The Organization of African Unity yesterday strongly condemned the supply of nuclear reactors to South Africa as "a serious threat against the peace and security of Africa and the world."

Noureddine Djoudi, acting secretary-general, who expressed the OAU's concern to the ambassadors of France and the United States here, said that "Africa does not intend to accept this kind of dealing..."

Mr. Djoudi said contracts with France for nuclear reactors and with the United States for enriched uranium had been signed, "so it is now up to the U.S. government and the French government to take into account the feelings of Africa."

He said that, if this was not done, Africa would have to take steps to "protect ourselves from the threat, not only of having nuclear weapons being used in our part of the world, but... it could be a threat to the world peace at large."

In Lusaka, the Zambian government called on the OAU to put pressure on France to cancel the $1-billion nuclear deal it has concluded with South Africa.

## *Rabies Near Paris Threat to Humans*

PARIS, June 3 (Reuters).—The animal-spread disease of rabies has reached areas less than 25 miles from Paris after blanketing a quarter of France in eight years, health authorities have said.

"There is danger in any forest northeast of Paris," Health Ministry Director General Pierre Denoix said at a news conference. He forecast that a case of rabies affecting a human being was almost inevitable in the near future.

The disease is incurable once it has taken hold and causes an agonizing death. But prompt treatment can prevent its taking hold. Mr. Denoix said modern treatment for suspected infection, usually a concentrated course of injections begun immediately after contact with a possibly rabid animal, was almost painless.

## *Cairo Assembly Approves Ban on Public Drinking*

CAIRO, June 3 (AP).—The Egyptian parliament has passed a law that would forbid Egyptians to drink any alcoholic beverages in public.

The first reading of the law was passed two weeks ago and was sharply criticized in the Egyptian press as a "return to medieval ages."

It would become effective after 60 days, if, during that time, President Anwar Sadat approves it.

There were rumors that Mr. Sadat has voiced objections to the law. Parliament officials said that the President has a constitutional right to return the law to parliament for another reading to delay its implementation. It was not known if he intends to do so.

The law allows foreigners to drink in hotels, tourist cafés or casinos.

## Baroness, 70, in Bath, Robbed of $1.6 Million

PARIS, June 3 (Reuters).—Six hooded thieves today stripped jewelry from a 70-year-old baroness while she was bathing in her apartment here, police said. They also took jewels from cases and escaped with loot—gems and cash—totaling 7.5 million francs ($1.6 million).

The robbers tore a bracelet from the ankle of Baroness Salvador de Lopez de Tarragoya, cutting her slightly, and pulled a 57-carat diamond ring, valued at $1.5 million, from her finger. The thieves got into the first-floor apartment after overpowering a caretaker and pushing her butler into the kitchen.

## *Pan-Orthodox Council, 1st Since 787, Planned*

GENEVA, June 3 (AP).—Preparations for the first Pan-Orthodox Council since 787—1,189 years ago—are to start here in the fall, the World Council of Churches announced today.

It said that a first preparatory conference is scheduled to convene in a suburb in October.

*Accepting Higher Budget*

# *Democratic Contenders Shun Issue of Spending for Defense*

By Leslie H. Gelb

WASHINGTON, June 3 (NYT).—Liberal and moderate Democrats, determined to prevent Republicans from making military spending a major issue in the November elections, are going along with a $114-billion Pentagon budget that they privately believe to be excessive.

More than a dozen Democratic legislators who voted for, or did little to oppose, the $14-billion increase over last year's defense spending acknowledged in interviews that this had been their strategy.

Jimmy Carter, the former governor of Georgia, Gov. Edmund Brown jr. of California and Sen. Frank Church of Idaho are consciously muting their positions on reducing military expenditures, according to their aides.

In large part, these Democrats were reacting to what they perceive as Ronald Reagan's success in using this issue against President Ford in the Republican primaries.

**Soviet Power**

Tied to this political calculation, according to Sen. John Culver, D-Iowa, was a mixture of "pride, frustration and machismo pressures" after the collapse of the Saigon regime. He also cited growing Soviet military power and what he called "a desire not to send out the wrong signals about American will."

"There aren't a great number of profiles in courage up here," said Rep. Patricia Schroeder, D-Colo., one of the better-known Pentagon critics who voted for the increase this year. "The members want to get re-elected and they got scared."

Rep. Les Aspin, D-Wis., was the only member of the House Armed Services Committee to vote against the committee's bill, which was almost $2 billion higher than the administration's request.

He saw several additional factors affecting his Democratic colleagues: fear of defense cutbacks leading to greater unemployment, pressures from pro-Israeli lobbies that used to support cuts but now oppose them and the U.S. sentiment against big government, a public-opinion development that has weakened the argument for reordering national priorities.

"The feeling among many voters," Rep. Aspin said, "is ... why take $2 billion away from the Pentagon and give it to HEW [the Department of Health, Education and Welfare] if HEW will waste it, too?"

**Presidential Race**

The same calculations seem to be weighing on Democratic presidential contenders.

Two weeks ago, a group of foreign-policy advisers to Mr. Carter met in New York to discuss what speeches their candidate should make in the coming months. According to Carter aides, the view was that Mr. Carter should play down his proposal for a reduction of $5 billion to $7 billion in military spending by giving no speeches on the subject, only answering questions.

Mr. Carter had already adopted this posture on the ground that he did not want to get in the middle of the Reagan-Ford confrontation on the issue and because he wanted to wait and see which man would win. As a member of the Carter camp put it, "If it's Reagan, we have the center. If it's Ford, we have to think about what to say."

When asked about this, Rep. Aspin said: "If I were advising Carter, I'd advise him the same way. I'm advising [Arizona's Rep. Morris] Udall and I tell him that the issue is a bummer."

Gov. Brown has talked about "rethinking" the need for some military bases overseas but in an interview in April he said that "I'd be surprised if there were dramatic savings to be made" in defense spending. "Military costs have gone up and I don't realistically think the budget will be cut."

**'Bunch of Garbage'**

A Brown aide said: "He thinks the Pentagon budget is a bunch of garbage but doesn't want to mix into the issue yet with the California defense industry and all that." The aide said that Gov. Brown is to meet in California next week with several Democratic defense experts and decide what to say next.

Sen. Church, who has a long record of voting for defense cuts, does not talk about the subject on the campaign trail. "He mostly stresses the need to reorder our foreign-policy priorities and, if asked, says he's against the new B-1 bomber and for the new Trident submarine," a source close to the senator said.

Rep. Udall has taken a consistent public stand in favor of a cut of 10 to 15 per cent in military spending as part of a program to reorder national priorities.

Rep. Patricia Schroeder

# Ford Changes His Approach In Campaign TV Advertising

By Joseph Lelyveld

LOS ANGELES, June 3 (NYT).—President Ford has drastically changed his campaign approach to television advertising, replacing commercials that portrayed him as a thoughtful and effective President with a new series of TV spots that employ the techniques used to sell toothpaste and floor wax.

The change in tactics became apparent this week with the airing of three new TV spots on California stations. The commercials used by the Ford campaign for the last four months have been mostly shelved and, as a result of the new approach, the two top advertising executives in the campaign have resigned.

The new material closely adheres to the conventions of what admen know as the "slice-of-life" commercial. One person who has had a good experience with a product enthusiastically describes its special qualities to an interested friend or relative, who is then transformed into a satisfied user. In this case, the product is the President.

"Ellie," exclaims a housewife to her friend, encountered on the sidewalk in front of a campaign headquarters, "are you working for President Ford?"

"Only about 28 hours a day," Ellie replies as the two friends walk down the street and stop in front of a supermarket. "Notice anything about these fruit prices lately?" Ellie says, making her pitch.

"Well," the friend acknowledges, "they don't seem to be going up the way they used to."

"President Ford has cut inflation in half," Ellie declares with careful enunciation.

"In half? Wow!" the friend replies in the astonished tones TV housewives use when they discover that their brand of paper towels doesn't absorb water nearly as rapidly as a friend's.

"It's just that I hate to think where we'd be without him," says Ellie, leaving five seconds in the 30-second spot for an anonymous voice to say, "President Ford is leading us back to prosperity. Stay with him. He knows the way."

The two housewives are obviously professional performers, as are the two hard hat construction workers and the father and son who appear in the two other new commercials.

In those the conversation is supposedly taking place on the edge of a crowd gathered for a campaign appearance by President Ford. Film clips of Mr. Ford are cut into the commercials to lend them a touch of authenticity.

**Volunteer Adman**

The new spots were designed and written by James Jordan, president of Batten, Barton, Durstine & Osborn, Inc., a New York ad agency that does not handle political accounts. Mr. Jordan was reportedly brought into the campaign as a volunteer at the urging of Don Penny, a former comedian and gag writer who is now a White House consultant, and David Kennerly, the President's photographer.

The earlier material never showed Mr. Ford as a campaigner—a role in which, his advisers reason, he could never hope to rival his opponent, Ronald Reagan.

Instead, the ads sought to exploit Mr. Ford's occupancy of the White House, showing him always in a presidential setting with "Hail to the Chief" or other stately music playing in the background. In some of the spots, the word "Presidency" was used a dozen times or more. The tagline used it twice. "President Ford is your President," it went. "Keep him."

The President is being outspent in California by Mr. Reagan, who appears in all his commercials in a dignified setting that is vaguely presidential, speaking directly into the cameras as Mr. Ford never does in the ads now showing here.

## Kissinger to See Vorster in Europe Later This Month

WASHINGTON, June 3 (UPI).—Secretary of State Henry Kissinger will meet South African Prime Minister John Vorster in Europe later this month, according to diplomatic officials.

They said today that the meeting will take place after Mr. Kissinger goes to Europe on June 30 for a Paris meeting of the Organization for Economic Cooperation and Development. He is scheduled to go to London, too, but the officials said that the meeting with Mr. Vorster will be in a city other than Paris or London.

Mr. Kissinger had raised the prospect of such a meeting during his recent African tour and President Ford said in an interview last month that such a meeting would be a possibility "if it were found to be useful."

## Rhodesia Troops Report Killing 12 More Guerrillas

SALISBURY, Rhodesia, June 3 (Reuters).—Rhodesian troops have killed 12 more guerrillas in the last 24 hours, bringing the total to more than 50 in a week, security forces headquarters announced today.

The communiqué said only that the 12 were killed "in the operational area"—the war zone that now spreads along Rhodesia's northern and eastern borders with Mozambique. No deaths among the security forces were reported.

## *Bundestag Acts To Tighten Laws On Terror Groups*

BONN, June 3 (UPI).—The West German parliament acted today to tighten laws against terrorism in the wake of bomb attacks on U.S. military installations.

The Legal Committee of the Bundestag, the lower house of parliament, recommended stricter punishment of terrorists as a deterrent. Membership in a terrorist gang would bring prison sentences of six months to five years.

## American Notes Lockheed Role

TOKYO, June 3 (UPI).—A U.S. businessman testifying before parliament said yesterday that he did not play any role in the Lockheed payoff scandal other than issue blank receipts for the U.S. aircraft manufacturer.

Shig Katayama of Los Angeles told a select committee of the lower house of parliament, "Lockheed has a large Japanese agent called Marubeni Corp. and a secret agent, Mr. Kyoshio Kodama. My influence in Japan is limited."

Mr. Katayama, a second-generation Japanese-American, earlier told reporters that he received $70,000 from Lockheed in return for supplying the aircraft-maker with blank receipts through his I-D Corp.

## Dutchman Seized In Passport Case

AMSTELVEEN, the Netherlands, June 3 (Reuters).—A 25-year-old Dutch student, Hugo Muller, was arrested here today on suspicion of "illegally disposing" of his passport, which was later found on the body of a man killed in the blast of a bomb he was carrying at the Tel Aviv airport last month.

A police spokesman said that Mr. Muller told police that he did not know he had lost his passport until detectives contacted him after the blast. He said that he had not used it since last October.

"We are not at all satisfied by Muller's explanation and we are now formally holding him under arrest," the spokesman said.

### 104th Troop-Talk Session

VIENNA, June 3 (UPI).—East-West negotiators held their 104th session on troop reductions in Central Europe today with no progress being reported.

# *Carter Seen By Rivals as Ohio Favorite*

### State's Primary Called Key to Nomination

By David S. Broder

CLEVELAND, June 3 (WP).—Jimmy Carter's rivals are conceding him the favorite's role in next Tuesday's Ohio Democratic primary and they admit that his victory here would virtually doom the stop-Carter movement.

"Clearly Carter is the favorite," said his most persistent challenger, Rep. Morris Udall of Arizona, whose usual ebullience was lacking yesterday after his seventh second-place finish to Mr. Carter on Tuesday in South Dakota. Agreeing with that judgment, Sen. Frank Church of Idaho said "a win in Ohio would project him [Mr. Carter] very close to a first or second-ballot victory" and make any stop-Carter effort "a very iffy question."

Both Rep. Udall and Sen. Church campaigned in Ohio yesterday and Mr. Carter was busy in California. The two foes of Mr. Carter were hoping to gain an edge in the battle for the delegate votes that has become the focus for Democrats of the three final-day primaries Tuesday.

But the virtually unanimous consensus of Ohio politicians is that Mr. Carter is a solid favorite to win. A victory here, along with an expected triumph in New Jersey and a second-place finish in California after the favorite-son candidate, Gov. Edmund Brown jr., would put the former Georgia governor within easy reach of nomination.

**'Movement Is Waning'**

In a Los Angeles news conference yesterday, Mr. Carter brushed off his losses on Tuesday to Sen. Church in Montana and to an uncommitted slate in Rhode Island that is backing Gov. Brown and declared, "The stop-Carter movement is waning in strength because a lot of Democrats think it's divisive."

Mr. Carter predicted that he would win at least 200 of the 539 delegates to be chosen on Tuesday—the biggest number at stake during one day of the primary season. In addition to Ohio's 152, California will divide 229 votes according to the candidates' share of the popular vote, and there are 108 delegates at stake in New Jersey, where Mr. Carter's opposition is fragmented between Rep. Udall and an uncommitted slate representing both Gov. Brown and Sen. Hubert Humphrey of Minnesota, who has refused to declare himself a candidate.

Mr. Carter estimated his own delegate strength at 1,091 now, with 1,505 needed for nomination. The Washington Post vote count gives Mr. Carter 891 votes.

A clear indication of the favorite's role Mr. Carter enjoys in Ohio came from the state's leading Democrat, Sen. John Glenn. The former astronaut has preserved a role of studied neutrality, in part because he is keynoter of the national convention and in part because he is a member of an uncommitted slate of Democratic officials contesting Mr. Carter, Sen. Church and Rep. Udall for the 38 at-large convention seats.

**'Best Organization'**

But Sen. Glenn told reporters at an appearance by Sen. Church in Canton Tuesday night that Mr. Carter "will do very well" in Ohio. "He's been here longer than anyone else and he has the best organization."

Mr. Carter is not without problems in Ohio. Unlike his rivals, he is dividing the day before the primaries among three different states, and his managers worry that he might be vulnerable to a concerted closing drive by Rep. Udall or Sen. Church.

But Mr. Carter has the broadest organization and the biggest advertising budget of the three candidates and enjoys a natural base of support in central and southern Ohio, whose small-town and rural residents, many of them with ties to the South, are believed to favor the Georgian.

## Printers' Strike Shuts Paris Daily

PARIS, June 3 (Reuters).—A printers' strike prevented publication of the Paris evening newspaper France-Soir today for the second time in a week.

The Communist-led printers' union, the Syndicat du Livre, struck in protest at the withdrawal of the France-Soir management from the Paris press proprietors' association (Syndicat de la Presse Parisienne) over issues of modernization and layoffs.

A strike over the same issue last Saturday prevented publication of both France-Soir and the daily Le Figaro. Georges Séguy, leader of the Confédération Générale du Travail, the union grouping to which the Syndicat du Livre belongs, said last night that the printers would block production of Le Figaro tomorrow.

## Soviet Jew Gets Visa After 4-Year Delay

MOSCOW, June 3 (Reuters).—Jewish activist Vitali Rubin said he received permission today to emigrate to Israel after more than a dozen refusals over a period of four years.

Mr. Rubin, a 52-year-old scholar of ancient Chinese philosophy, had previously been denied an exit visa because he was an "important specialist."

Jewish activists used his case to attack the official Soviet argument that only people with secret scientific and other classified information are barred from emigrating.

According to his own account, he was forced out of his job at the Academy of Sciences' Institute of Oriental Studies after he applied to emigrate in 1972. He later took up private teaching.

## *Americanistics Is Soviet Term For U.S. Study*

MOSCOW, June 3 (AP).—If "Sovietology" and "Kremlinology" are the U.S. words describing studies of this country, what term do the Russians use for the study of the United States?

"Americanistics," according to Tass.

The news agency used the word several times today in a dispatch announcing the establishment of a new council at Moscow State University to help students do research on the economics, politics, history, philosophy and literature of the United States. It will be called the "Americanistics Problems Council," Tass said.

It is the first public use of the term. The Russians have indicated a dislike of the words "Sovietology" and "Kremlinology," and thus apparently are avoiding the word "Americanology."

# SENIOR EXECUTIVE JOB GUIDE

*Published at the end of the week, this is a compilation of senior-level job opportunities from selected publications. Senior level jobs published by the International Herald Tribune through Tuesday automatically appear in this feature.*
*To place an advertisement in "INTERNATIONAL EXECUTIVE OPPORTUNITIES," contact our office in your country (listed on back page). Any questions or comments concerning this feature can be directed to Mr. J. Shelby in the Paris office.*

# The Art of Going Crazy After 25 Years

By Hebe Dorsey

RIS, June 3 (IHT).—Leave it to the French to make strip-ng chic. The show at the y Horse Saloon has always a world away from the ping and grinding of the y-tonk burlesque circuit in United States. Now in its year, Le Crazy has all the s it can handle—and more.

f to prove it, dozens of s, princes, counts and ordi-rich people turned up Tues-night at the Wally Findlay ry where Simone Karoff v a dinner honoring Alain ardin, owner of the night-

It was the kick-off for three days of birthday celebrations for the club.

Needless to say there was a quid pro quo. Nicola Simbari, with the gallery for 17 years, was showing 50 paintings and 10 gouaches celebrating life at Le Crazy. The idea was to do for Bernardin's boîte what Toulouse-Lautrec did for Le Moulin Rouge. But few of the dinner guests were looking at the paintings—the live show was, to say the least, somewhat distracting.

As guests arrived and walked down the stairs to greet Mrs. Karoff, they were announced by a stuffy maitre d'hotel in ceremonious French style. Then, suddenly, the elevator to the left opens. Inside: two stark naked Crazy girls jerking away under psychedelic lights. Talk about culture shock.

Every time the elevator doors opened, there was a mad rush. Count de Montmort made it, jumping into the lift and dancing with the girls.

On the star-studded guest list were Prince and Princesse Napoléon Bonaparte, Duc and Duchesse de la Rochefoucauld, Duc and Duchesse d'Orléans, Princesse de Polignac, Baron de Rédé, Margot and Edmond Bory and Maryll and Bernard Lanvin. Jacqueline de Ribes arrived in time for dessert and Marie Bell was holding court with the Duke of Bedford.

Last night, Mrs. Karoff did an encore—a cocktail party with the Crazy girls, this time wearing long evening dresses designed by Loris Azzaro, who has been the couturier, so to speak, of the Crazy for years. "They were terribly excited," said Azzaro in the fitting rooms. "but so shy, my dear. Do you know that they were hiding behind the curtains? Not a bosom in sight."

Mrs. Karoff commented that the girls came in "looking just like little ladies."

They, too, were announced by the solemn maitre d'hôtel, who kept his cool as he intoned: "Lova Moor," "Trucula Bonbon," "Capsula Popo," "Prima Symphony," "Polly Underground" (that was the American) and "Miko Miku" (Japanese, that one.)

"They were so cute," Mrs. Karoff said, with a fairy-godmother smile.

Many of the same guests turned up last night. Danish millionaire Hans Smith and his wife had flown in from the south of France to buy a painting of a gigantic red mouth—and were disappointed to find out the mouth had already been sold (for $1,000) to an unidentified guest at the previous night's party. "Never mind," said Mrs. Karoff, "we'll take a commission and do his wife's mouth."

The finale tonight will be a supper at the Crazy Horse for 320 people. The 10 girls, back to normal again in their G-strings, will be sitting at the tables. But they will also wear masks. The guest who can guess who is who will win a trip to the Ile Maurice. One way?

Artist Nicola Simbari at the elevator.

## THEATER

# Comédie-Française Revives Scribe's 'Le Verre d'Eau'

By Thomas Quinn Curtiss

RIS, June 3 (IHT).—As its last production of the sea-the Comédie Française is nting a handsome revival of Verre d'Eau" at the Théâtre guy.

is celebrated comedy by e is set in St. James's Palace g Queen Anne's reign and ring about Tory-Whig rival-reflected in the court feud en the Duchess of Marlbor-and Bolingbroke. It had emiere at the Théâtre Fran-n 1840 and has been an in-tional favorite ever since.

lbe, like most innovators, has a lot of abuse. His crime? vented the "well-made" play e modern theater knows it.

lbe's major technical reform the tidying up of narrative opment. There is probably line in "Le Verre d'Eau" does not forward the plot. ng is wasted and everything its proper place.

Verre d'Eau," arguing no ted social issues, is as fresh timulating as ever after 137 Its historical background is d to the costuming and for it is unlikely that Queen was a flirtatious nincom-or that the fate of England settled when she asked for s of water and thus exposed Duchess of Marlborough's passion for an officer of the e guard. But the play has st its fascination and holds 976 audience rapt with its de-theatre, complicated in-s and ingenious dramaturgy.

Annie Ducaux is superb as the imperious, conniving duchess, a role of glittering polish, done with elegant dexterity, neatness and dispatch. Miss Ducaux delivers a brilliant exercise in stylized comedy, illustrating the lady's passion, trickery, indignation, shame and feigned remorse with impeccable gestures, inflections and attitudes. It is a great pleasure to watch her.

Jacques Toja is admirably fitted to serve as her foil in the sparkling duel of wits. His Bolingbroke is a calculating, cautious courtier whose measured tactics win victory over the headlong determination of his haughty rival. Geneviève Casile is amusing as the queen, eager for gossip and love and with scant curiosity about foreign policy. Catherine Sauvat and Nicolas Silberg make an attractive pair as the young lovers.

Unlike many of his colleagues, director Raymond Rouleau has not distorted the text to magnify his signature. The action is swift and clear and the tone that of spirited banter and exciting excursions. Jean Thomen has provided a unit frame as setting, its interior alternating for the changes of scene, so that the production has an air as removed from reality as the play is from historical accuracy. Yvonne Sassinot's costuming delights the eye with its imaginative recreation of the age of Queen Anne. The evening ends with a lively divertissement, an appropriate conclusion to this enduring comedy.

# NDON: The Royal Ballet's w, 'Forgettable' Offerings

By Oleg Kerensky

IDON, June 3 (IHT).—erhaps people more in-ed in showbiz than ballet e reasonably entertained by Carter's "Lulu," which had world premiere here last

nobody is likely to want e it more than once. It's a waste of the talent of the ig section of the Royal t and of hard-earned y.

e second new ballet, David e's "Pandora," was at least ensive to produce.

e repertoire for the Sadler's season extended by me public demand, to June also includes: major works shton, Cranko, Ninette de s and Andree Howard, as as "Les Sylphides," "Gi-" "Coppelia," and the diver-nent from "Raymonda."

d there is a strong team of ers.

parently the touring section accepted the heresy that new ballet is better than

Both the new works are ntly forgettable.

ulu" tells the familiar kind horror story, using aud's popular "Le Bœuf sur toit" music for the light-ted erotic scenes and his somber "Concertino d'Hiver" Lulu's fatal encounter with the Ripper. The circus-music is repeated faintly in background after Lulu's h, presumably to suggest that he world's a stage or some profound thought. This rlines the main weakness of work, that it has neither t of view, nor much in the of originality or choreo-ntic invention.

starts off promisingly with e fun-fair booths and with hen Jefferies in red coat and ge wig (borrowed from his as the jester in "Card ne"?) cracking a whip as a stic ringmaster—shades of baret." Merle Park, fresh r her triumphs with the n section of the Royal Ballet New York, looks sophisticated seductive as Lulu, constantly nging her costume and pro-atively showing a shoulder or elegant leg. There is an ef-ive farcical scene with her rs hiding behind screens and ler a table. And Norman Dowell has provided a fine rdrobe of near-burlesque cos-nes and some quickly changed nospheric sets.

The other new ballet, "Pan-a," presents the attractive ncers in sexy tights designed Peter Farmer, against a limentary set. It is acceptable, ugh not very distinguished, as abstract ballet, but its at-npts to tell a complex story involving Prometheus and Zeus as well as Pandora are muddled and unintelligible. Nor is it particularly well suited to Roberto Gerhard's interesting musical score, originally written for Ballets Jooss.

Much more pleasure was to be got from De Valois's "Checkmate," with first-class performances by Maina Gielgud and Stephen Jefferies, and from Nureyev's staging of "Raymonda," with Margaret Barbieri displaying exactly the right style and technical authority in the ballerina role, and with good support from the company in the Hungarian character dances.

### Nureyev

All it needed was Nureyev himself, but he has just launched his seven-week marathon, the so-called "Nureyev Festival," at the Coliseum. On Tuesday the strain of rehearsing and performing so soon after having pneumonia and immediately after flying here from the United States was cruelly apparent. He achieved miracles of technical virtuosity as the Prince in his spectacular and ambitious version of "The Sleeping Beauty," but it was clearly a triumph of his indomitable will over his tired body.

The gala evening marked the London debut as Aurora of Karen Kain, the Canadian ballerina, replacing an indisposed Evdokimova.

She danced with admirable precision, speed and elevation but was rather more of an athletic hockey captain than a diffident princess in the first act. It may have been nerves which caused her to seem over-exuberant and yet unexpectedly nervous when it came to the difficult balances of the "Rose Adagio"; she was softer and more lyrical in the vision scene, and made light of the technical problems of the last act. Nicholas Johnson was an elegant and stylish Bluebird but the supporting ranks of Festival Ballet seemed to know and care little about the appropriate style, and the whole ensemble looked colorless, especially by contrast with the Stuttgart Ballet, which had just left this theater. And it was difficult to believe that the circus-band sounds coming from the pit were produced by the same orchestra which had played so well for the visitors from Germany.

"The Sleeping Beauty," with Eva Evdokimova and Patricia Ruanne alternating with Karen Kain, continues till June 19th. "Nureyev and Friends" in divertissements June 22-July 3, the Scottish Ballet in "Les Sylphides" and various modern works July 5-17 are on the program. Nureyev appears at every performance.

## SHARPS & FLATS

PARIS—Leonard Cohen will be at the Olympia June 4 to 6 at 9 p.m., with a matinée on June 6 at 5 p.m. Caravan will be at the same hall June 7, also at 9 p.m. Folk singer Tom Paxton will be at the Nouveau Carré June 8 at 8 and 10 p.m., as will Steve Wering June 9-11 at 9 p.m. Dolly West is appearing nightly with Gordon Heath and Lee Payant at L'Abbaye and Shirley MacLaine tops the bill at the Palais des Congrès from June 9 to 14.

* * *

Max Collie and his Rhythm Aces will give a New Orleans concert June 10 in the Unesco building, 125 Avenue Suffren, Paris 7, at 6 p.m. The next night they will be in Amiens at the Jazz Club and on June 12 and 13 at Luméray (near Dieppe) at the Jam Potatoes, along with Bill Coleman, Slide Hampton, Beryl Bryden, Monty Alexander and many others.

* * *

FRANKFURT—Jazz night at the Jahrhunderthalle on June 4 at 8 p.m. features Barney Bigard and Cozy Cole.

* * *

MONTREUX—Singer Vera Love is appearing nightly at the Casino.

* * *

BRUSSELS—Leonard Cohen at the Cirque Royal June 10 at 8 p.m. and Nicole Croisille at the Forest National the same night, also at 8 p.m.

LONDON—Julie Andrews headlines the Palladium from June 9 to 14. The Monty Alexander trio and the Tom Waits quartet are appearing nightly at Ronnie Scott's.

* * *

Sold out in Paris, Zurich, etc., it's the same story all over Europe for the touring Rolling Stones, who, if nothing else, are at least assured of a financial success.

* * *

This week's top single in the United States is "Silly Love Songs" by Wings, and in Britain, "No 'Charge" by J.J. Barrie.

—FRANK VAN BRAKLE.

### *Soviet Violinist Wins Queen Elisabeth Prize*

BRUSSELS, June 3 (Reuters).—A Soviet violinist, Mikhail Bezverkhny, 29, has won this year's Queen Elisabeth music competition.

Mr. Bezverkhny was one of 12 finalists who played three works before a jury headed by violinist Yehudi Menuhin. Belgium's former Queen Elisabeth founded the contest in 1951 to foster promising young musicians.

Previous winners of the competition, worth 200,000 Belgian francs, have included violinist David Oistrakh and pianist Emil Gilels.

# Fly me and get a taste of Miami before you get there.

I'm Donna.

The moment you step aboard one of my big, beautiful wide-cabin jets you'll experience some of the warmth and friendliness of Miami.

You'll see it in our smiles and feel it in our service.

In fact we'll do everything we can to make your flight a terrific one. Not because we have to, but because we want to.

And when you arrive in Miami you can take advantage of our same airline service to all of Florida, New Orleans, Houston and California.

Or our convenient connections to the Caribbean and Latin American sun-spots.

For reservations call National Airlines direct, or your travel agent.

# Changing Partners in Lebanon

There are times when the chaos of Lebanon takes on a mad kind of order—when some act produces a predictable set of realignments, as in a grisly country dance of death, when partners change, when new lines confront one another. Syrian intervention in force has produced such a situation: The Moslem leftists turn against the country that once supported them, the Iraqis utter warnings, the Christians call upon the French. But the dying continues, and no one can yet say who is calling the turns.

It has become largely accepted by the world outside, as well as by Lebanese, that the Syrians represent moderation in Lebanon. This has its own irony, since among the nations actually engaged in the wars with Israel (as opposed to those like Libya, which are content to supply arms and encouragement to those who do the fighting), Syria has been intransigent. Moreover, internally Syria is far more radical than Egypt, to say nothing of Saudi Arabia. Also, Syria has never forgotten that Lebanon was once a part of itself, in Ottoman days, nor has it wholly surrendered the idea of a greater Syria that would re-incorporate the partly Christian coastal region that comprises Lebanon. So the world watched with suspicion the earlier moves by Damascus.

But what has arisen in Lebanon is a far more leftist, far more Moslem movement (even if it includes the heretical Druzes), a movement that would make it impossible for a reconstruction of the Christian-Moslem alliance that gave Lebanon a reasonable degree of peace and a pronounced degree of prosperity. The succes of the mixture of Marxist, Druze, extremist Moslem, activist Palestinian elements that are operating in Lebanon would wreck the nation as it existed and offer little prospect of unity and order.

This would not be good for Syria, in that a close neighbor in prolonged economic and political distress places strains on the Damascus government, especially since that distress is now dominated by trends far closer to those prevailing in Syria's rival, Iraq.

So Syria, in moving its troops into Lebanon, has the sympathy (however much skepticism may flavor it (of all those who hope for a return of stable government to Lebanon, and some prospect of a general settlement in the Middle East. Its effectiveness is still in doubt: the reaction of the supporters of the Lebanese and Palestinian extremists among the other Arab states and in the Communist world cannot yet be fully gauged; the possibility that Syria itself may carry its intervention too far cannot be ignored. But at the moment, and given the circumstances, the Syrian troops do present some possibility of ending, or at least suspending, the blind blood-letting that makes Lebanon a prime example of man's inability to live with his fellows.

# Indecisive Round

The primaries in Rhode Island, South Dakota and Montana produced indecisive results in both the Democratic and Republican presidential contests.

The most striking event was the success of Gov. Edmund Brown jr. in persuading Rhode Island Democrats to vote for an uncommitted slate of delegates since his own name was not on the ballot. The first-place finish of the uncommitted slate, combined with Sen. Frank Church's strong third-place showing, meant that 60 per cent of the total vote went to the two late entrants in the race, while former Gov. Jimmy Carter, the front-runner who has entered every primary but one, polled only 30 per cent. The significance of these results is muted, however, by the fact that fewer than one-tenth of the state's Democrats participated in the primary on a day of steady rains.

Sen. Church meanwhile demonstrated once again the hold that he has on the regional loyalty of Far Western Democrats by adding a handsome victory in Montana to successes he had already achieved in Nebraska, Idaho and Oregon. Mr. Carter offset his Rhode Island setback by winning in South Dakota, where Rep. Morris Udall—for the eighth time in this year's primaries—ran a close second.

It is impossible to know whether the South Dakota outcome would have been altered if a slate of delegates nominally uncommitted but openly favorable to Sen. Hubert Humphrey had not drawn off 13 per cent of the vote.

On the Republican side, President Ford swept all the delegates in Rhode Island while losing narrowly to former Gov. Ronald Reagan in South Dakota and overwhelmingly in Montana. Because of the marked regional divergence that has opened up within the Republican party this year as the Reagan-Ford rivalry developed, the President's easy win in the Northeast and losses in the Plains and Mountain states had been anticipated.

With the contest in both parties still extremely close, the actual number of delegates won has become the single most important factor, outranking such intangibles as prestige and momentum. Since Mr. Carter does reasonably well even where he does not finish first, he continues to accumulate delegates at a steady pace, and this Tuesday was no exeception.

In the GOP, President Ford was the day's winner. His sweep of Rhode Island and his proportional share in the other two states gave him a total of 35 delegates to Mr. Reagan's 24. Thus, President Ford and Mr. Carter remain the men to beat as time runs out for their rivals.

THE NEW YORK TIMES.

# India: More Repression

The thoroughness with which Prime Minister Indira Gandhi's government is dismantling India's democratic system remains a cause for astonishment even after 11 months of iron-fisted rule. Equally surprising is the docility with which Indians who might have been expected to resist encroachments on freedom are greeting each new repressive step.

In January, the Indian Parliament enacted a sweeping measure to make permanent the already drastic press censorship that had been in effect since Mrs. Gandhi assumed dictatorial powers last June. The law provided harsh penalties for publication of any article or picture that might "bring into hatred or contempt or excite disaffection toward the government" and of any item ruled "defamatory" of Mrs. Gandhi and other high officials.

Now the same obedient Parliament, dominated by the Prime Minister's Congress party, has given final approval to an amendment to the Constitution that prohibits any challenges in the courts to punishments meted out by the government for alleged infractions of the censorship. The amendment also bars courts from considering appeals under more than 60 other laws, including those dealing with such crucial matters as land reform and bonded labor.

Thus does the daughter of Nehru proceed recklessly with the destruction of the freedoms proclaimed by her father and the institutions he fashioned for the protection of those freedoms. In Orwellian fashion, she acts under the pretense of "preserving" democracy; and the Indians most culpable in this deplorable situation are those who, recognizing this deception, give it their support.

THE NEW YORK TIMES.

## *International Opinion*

### *Cod War Settlement*

Iceland has won outright and no harm comes of acknowledging that. But [Foreign Secretary Anthony] Crosland was right to accept the peace terms of the offer; the alternative was a further long period of costly and ineffective naval protection for the fishing fleet, ending with international endorsement of Iceland's territorial rights within 200 miles . . . The result of the armistice is that much of the trawler fleet formerly used for Icelandic waters may have become redundant. Whether owners observe the new restrictions by reducing the number of vessels in commission or by alternating them on the Icelandic journey will be their decision; but whereas there has previously been work for nearly 100 boats there will now be work for only half that number . . . Britain's fishery interests are being encroached upon not only by Iceland but by our European partners as well, and what is needed is not so much a long-term agreement between the Community and Iceland, but a considered fishing and conservation policy for the whole of the North Atlantic, including British, Irish, Icelandic and Norwegian waters and even those further afield off Newfoundland and Greenland . . .

*—From the Guardian (London).*

## In the International Edition

### Seventy-Five Years Ago

June 4, 1901

SAN FRANCISCO—A great deal of undue praise has been given to the Commonwealth of Massachusetts because her Legislature has recently passed an act forbidding the sale of cigarettes to boys under 18 years of age. The idea is noble, sane, logical and healthy, but unfortunately the passage of such an act is easy; the trouble will come in trying to enforce it. One can only hope for the best.

### Fifty Years Ago

June 4, 1926

COLUMBUS, Ohio—Officials of Ohio State University were investigating conditions at the university today after the discovery of liquor in the rooms of several coeds in a private women's dormitory. Three and possibly more girls are involved in the investigation, although their names are being withheld. The girls in whose room the liquor was found have voluntarily left school.

*'...Er... My Other Secretary... More of an Aide, Really... This Way!'*

# *Reagan and the Sweet Smell of Victory*

By Rowland Evans and Robert Novak

SACRAMENTO—The brutal contrast between an absent President, represented by marginal stand-ins, and a popular ex-governor, campaigning as though at a homecoming jamboree, now threatens a defeat for President Ford in next Tuesday's Super Bowl primary far more costly than the White House thought possible a few weeks ago.

Indeed, moving through the rich, lush central valley this week, Ronald Reagan's campaign had the sweet smell of a victory march before the battle has been fought with an invisible enemy. Mr. Ford's campaign, on the contrary, is bland and absentee. Those conditions were imposed by the President himself after several Republican senators—including John Tower of Texas, Barry Goldwater of Arizona and Bob Dole of Kansas—pointedly urged him to "go easy" on Reagan here, despite the fact that California, scene of Reagan's greatest triumphs, is also the source of his gravest vulnerabilities.

### *National Darling*

That advice, relayed to the President's managers here by campaign chairman Rogers Morton, resulted not just from the fact that Reagan is the national darling of the Republican right wing, thus desperately needed in the fall campaign, but also because the man the President faces here was twice elected governor by large majorities whose support he still seems to enjoy.

But the decision to eschew bloodletting for fear of party fratricide has handed Reagan two valuable points, both of which he is now exploiting to the fullest:

1. The wildfire of political gossip across the state, abetted by the press, that the President has "given up" on California and its 167 winner-take-all delegates. Such gossip has sapped morale and energies of pro-Ford campaigners.

2. Reagan's freedom to roam the state (in the company of aging but still-adored Hollywood hero Jimmy Stewart) with attendant play in the media. That freedom is absolute, without serious competition.

The measure of competition can be grasped by the fact that the minority leader of the State Assembly, Paul Priolo, agreed to take 90 minutes out of a hard schedule to provide a touch of glitter at a coffee-for-Ford hour here arranged by Mrs. Lynn Galster, a pro-Ford volunteer. Exactly five women showed up—and four were already committed to the President. Yet, so out of touch with political reality is the Ford White House that the President himself had gratefully telephoned Mrs. Galster the day before to thank her for giving the party.

In sadly similar fashion, another Ford leader here agreed to invite all 25 Republican assemblymen to dinner with Virginia Knauer, the President's consumer affairs specialist. The affair was another embarrassing bust. Only eight assemblymen showed up and Mrs. Knauer, instead of sticking to the Ford record on consumerism (admittedly less than glittering) made a 20-minute political speech that angered those she was supposed to win over.

### *Puny Competition*

Such puny competition further enhanced the full week of Reagan's personal campaigning. It gave play to the theme Reagan is now laboring to get across: That he, not the President, "has been winning the states the Republicans must have" to win in November. Those states exclude the Northeast and the industrial North, where Reagan has been shut out in his primary battles with Mr. Ford; they include the South, the Sun Belt, the Mountain states, the agricultural Midwest—and California.

Ridiculing warnings of Republican moderates and liberals that his nomination would doom the party, Reagan won surprisingly enthusiastic applause in denying that he is a "jingoistic warmonger" and in informing packed rallies in Bakersfield, Fresno and Visalia that his record as governor of the largest state should be carefully examined before he is attacked as belonging to the "far right." Superbly equipped as mesmerizing stump speaker, Reagan had his audiences—including Democrats—agreeing with his indignant charge that Mr. Ford's partisans are playing unfair politics in claiming "that I couldn't get elected." That is ridiculous, he said, when viewed against his two elections as governor in a state with a large Democratic majority.

President Ford's decisions neither to return here nor to allow his handlers to take the gloves off seem to have ended the chance for a body blow against Reagan, with this result: Freeing Reagan for the unexpected dividend of a last-minute campaign in Ohio and sending him into the crucial post-primary period with new credibility as a winner—an asset of real value in the fight for uncommitted delegates about to start.

# White House: Power and Illusion

By Anthony Lewis

BOSTON.—At his ranch after he left the presidency, Lyndon Johnson would meet with four or five field hands early in the morning. His voice was as urgent as it had been with the White House staff, but this was the sort of thing he had to say:

"Now I want each of you to make a solemn pledge that you will not go to bed tonight until you are sure that every steer has everything he needs. We've got a chance of producing some of the finest beef in this country if we work at it, if we dedicate ourselves to the job . . . But it'll mean working every minute of every day. Now I want you to write down the following symbols, HP means high priority . . ."

That strange, painful scene is from Doris Kearns's book, "Lyndon Johnson and the American Dream." How revealing a vignette it is. His immense political power gone, Johnson was still driven by the need that had driven his life—the need for control. And so he kept himself close to the ranch, a tiny kingdom that he could still govern.

The Kearns book offers extraordinary insights into Johnson the man: his dreams, his hopes, his obsessions. No other president has had a biographer who observed him so sympathetically, who had such access to his private thoughts, yet who was able to write with the critical detachment of a scholar.

It is a remarkable book not for the Johnson portrait alone but for the way that it is set in a larger view of the presidency and American politics. Lyndon Johnson was a unique figure. But Miss Kearns makes us understand that his rise and fall were connected with our political expectations—especially with what we have come to expect from the man in the White House.

### *In 40 Years*

Until 40 years ago there was only a tiny White House staff, and most of the executive functions were carried out in the separate departments. Then, under public pressure for presidential action, the process of concentration began. It was well along when there came a president whose deepest instinct was to keep control in his own hands, whether of a ranch or a country.

He wanted to help people. That was his justification for seeking power—a sincere one, Miss Kearns rightly says. He believed that "in controlling others he was acting in their best interests, giving them things they could not provide for themselves."

But the giving was on his terms. He insisted on secrecy and surprise for his plans—as if they were birthday presents. He admitted to Miss Kearns that he concealed the facts about shortcomings in Great Society programs because he did not trust the public to understand.

And he expected gratitude in return for his gifts. He expected them to create a bond of "dependence, interest, even love." When the public turned against him he actually asked: "How is it possible that all these people could be so ungrateful to me after I had given them so much?"

But there can be, in Miss Kearns's phrase, "the tyranny of benevolence." What Johnson did not understand is that even people who want help may come to resent benevolences thrust upon them. Or alternatively, they may grow too dependent. Paternalism, however well-intended, may have unhappy consequences.

### *Drawn Together*

Miss Kearns draws all these threads together in her discussion of the issue that wrecked the Johnson presidency: Vietnam. Even there, with people beyond his experience, he insisted that he could control events. He assumed that the Vietnamese were like U.S. senators, subject to the same pressures and logic. He needed, Miss Kearns says, "to create a Vietnam in his mind."

The modern president is encouraged to think himself omniscient and omnipotent because he is treated like a king in the White House. George Reedy made that point, and Miss Kearns provides glorious new examples. When Johnson spoke of dieting, by the day's end the White House was stocked with 150 pounds of cottage cheese, 275 containers of yogurt and 10 pounds of diet candy flown in from his favorite store in San Antonio.

The danger of benevolence grows greater with the inflation of ego. No person is wise enough to decide everything for everyone. Johnson could not face that truth. Fearing to lose any control, he lived the personal and political nightmare of losing it all. That was his tragedy, but it should be our lesson.

For the point of this book is much larger than Johnson. A modern president's command of the media, his huge staff, his technological apparatus all give him a feeling of control that may be false. The resources of the White House, Miss Kearns says, provide "both power and illusion."

## Letters

### Could It Be?

The heat and brouhaha engendered by a French television retrospective on Marshal Pétain has again canceled plans for a televised review of the Dreyfus case, whose 80-year-old passions are obviously too recent to be roused.

What is not generally known is that a similar program scheduled for 1989 dealing with the Great French Revolution on its bicentenary may be shelved for the same reason.

"We don't have any newsreel film, of course," said a French television source, "but we thought to make do with parts of old movies like D.W. Griffiths's 'Orphans of the Storm' and some Sacha Guitry clips. Then we planned having a discussion among literary personalities. Almost immediately persons claiming to represent Sartre and Malraux said under no circumstances would they appear together on the same panel—and it was difficult explaining that considering the date of the program, 13 years hence, we really had neither in mind. But the worst was the reaction of French political groups. Ultra-leftists served notice they would not tolerate sentimentalizing over the fate of the royal family. The Communists let it be known they would resist any attempt to magnify the role of 'the American puppet La Fayette'."

Most disheartening, said the French TV source, was a threat to march on the studios by a group calling itself Les Petits Choux Choux des Chouans, who wanted equal time to argue the case for a restoration of the monarchy.

"All is not lost, however," he said. "We are thinking of focusing down on the Tennis Court Oath and somehow using film on Lacoste, Borotra and Suzanne Lenglen—the golden age of French tennis, which the Revolution foreshadowed. Who could be offended by that?"

PETER KALISHER.
Paris.

### A Contribution

The Democratic party platform hearings recently held in Brussels showed that Americans abroad believe that a credible foreign policy depends to a very large extent on sound domestic policy. If America is not performing well at home, it cannot in the long run be expected to do well abroad.

In the continuing battle to win the friendship and support of the developing countries of Asia, Africa and South America it is clear that what we are at home has enormous bearing on our image and influence abroad. Domestic efforts to eliminate poverty, to promote justice and equality for all Americans, to control pollution, to provide medical services to all our citizens at a reasonable cost and to carry out a host of other measures in the public interest must, therefore, be vigorously supported by Americans abroad.

Demonstrating the link between domestic policy and foreign policy may well be the major contribution which Americans abroad can make at the Democratic and Republican National Conventions.

ERIC OSTERWEIL,
Chairman,
Platform Committee
Democrats Abroad
(Belgium).
Brussels.

### Initial Reaction

I read your article "Pipeline Gets Go-Ahead to Tap Cow Dung for Gas" (IHT, May 26). I wish to state that in my opinion if anyone is capable of effecting this it will be the Calorific Recovery Anaerobic Process Inc. or its acronym, CRAP.

SIEGFRIED HARTOGS.
Schiedam, the Netherlands.

*Editor's Note: A number of readers have commented on this acronym. When asked, the firm in question replied, "That's right, it's why we chose the name."*

### Correction

Because of a transmission error, a sentence in Jonathan Power's column (June 3) said 20 per cent instead of 2 per cent. The correct version: "If we no longer nurtured these anachronistic industries behind tariff walls we would hurt only 2 per cent of our work force."

# A-Electricity And Life on The Waterline

By George F. Will

WASHINGTON.—When the Titanic steamed into an iceberg, the disaster was not democratic. Fifty-six per cent of third-class women passengers died. Only four of the 145 first-class passengers died. You do not need to ask which class was traveling near or below the waterline.

The social structure of the Titanic was like that of society. Hard times come first and hardest to persons living close to life's waterline. This fact is relevant to much argument about social policies, including the growing argument about the use of nuclear power plants to generate electricity.

Few things are as deceptive as the misdescription of social issues. Opponents of nuclear power have managed to present this as an "environmental issue". But the dispute concerns the allocation of significant social costs and opportunities.

Hence it is a "social justice" issue, with values other than "environmental" at stake.

Thirty-four states are considering legislation or referenda to restrict or eliminate commercial nuclear power plants. And California will vote June 8 on a measure that may set a pattern. If passed, Proposition 15 will mean the closing of some existing nuclear plants. Others will be harder, perhaps impossible, to build.

### *Old Pedigree*

At one level the dispute is esthetic and ideological. Around the nation, and especially in California—home of much high technology industry—an intense, articulate and growing minority believes that technology, and the economic growth it supports, has gone too far. This idea, which has a more ancient pedigree as steam power, is part of the fuel for the anti-nuclear movement.

But, at another level, the argument is about practical questions of safety. Opponents of nuclear power argue that it involves intolerable risks of catastrophic accidents (release of a radioactive cloud); that the disposal of nuclear wastes is an unsolved problem; that terrorists can build nuclear devices with material pilfered from nuclear plants.

The fears, although not groundless, are not substantial enough to merit an action as severe as Proposition 15. It might indeed (as many of its supporters hope) stop all nuclear power in California and show how to do that elsewhere.

There is nothing inherently insoluble about nuclear waste disposal problems. Terrorists will have many plants to attack in nations where security is more lax than in the United States. And after hundreds of reactor years of operation, there has not been a single radiation fatality in any of the 162 commercial nuclear plants around the world.

The costs of banishing nuclear power are more certain than the risks of not doing so. Conservation can dampen but not halt the growth of demand for electricity. And against the remote possibility of an unprecedented nuclear catastrophe stands the certainty of numerous deaths attributable to respiratory ailments aggravated by increased use of coal in power plants.

### *One Sure Way*

That is just one way of saying that there are many ways to adversely affect the "quality of life." One sure way is to restrict the life chances of the less-well-placed members of society.

When the necessities of life become more clear, the pain is worst for persons whose conditions are most necessitous. Electricity generated by nuclear power is less expensive than that generated by oil or coal plants, and lower-income persons are apt to spend significantly more of their disposable income on utility costs than are more affluent people.

In addition, curtailment of nuclear power in California, and elsewhere, would mean slowing economic growth. It is arguable that that would be good for our souls. What is certain is that persons who have farthest to rise in a society have most to lose from the dampening of society's dynamism.

To persons well above society's "waterline," Proposition 15 may look like an "environmental issue". Those at or below the line will be forgiven for thinking that what is at stake is the social environment. Hence, Proposition 15 is a question of social justice. Life at the waterline does concentrate the mind.

PARIS, FRIDAY, JUNE 4, 1976

*Drops for Fourth Day*

# ound Seen Suffering ame Fate as the Lira

DON, June 3 (AP-DJ).— g fell for the fourth con- e day today in a foreign ge market that seemed ed that the pound would the same sort of collapse lira.

pound fell to $1.7092 from yesterday, bringing its y loss to about 6.3 cents, per cent. During the day, und touched $1.70 but at wed the Bank of England ed to give its currency some However, the central intervention at other times to be very limited.

ng's trade-weighted depre- as calculated by the Bank land, widened to a record r cent below 1971 parities currencies from 4.1 per sterday.

gn exchange dealers were an analogy between Brit- Italy on the basis that ountries seemed to have ed much of their ability ow foreign currencies and ave limited foreign ex- change reserves to support their currencies.

Britain's reserve figures for May showed that the Bank of England spent about all of Britain's International Monetary Fund drawings and other foreign currencies borrowings of about $3.2 billion for support of the pound in the first four months. With estimated foreign currency reserves of about $3.3 billion, Britain can no longer afford much of a defense of its currency, some bankers contend.

Dealers said that when the pound rallied to around $1.72 during the day, British corporations were quite eager to sell sterling, which reflects their view that the prospects for a solid recovery of the pound are not good.

**Government Stand Seen**

Political commentators say the Labor government plans to tough out the worsening sterling crisis for at least two more weeks to ensure the government wins final trade union agreement for a voluntary wage restraint deal, the key to an anti-inflation program.

Chancellor of the Exchequer Denis Healey declared in two nationwide television appearances last night that it would be foolish "to take measures which ... would bust the relationship between the government and the unions."

He was referring to a growing clamor for fierce cuts in public spending to support the pound.

Mr. Healey did not elaborate, but the commentators said the government believes that to make major cutbacks now would wreck all chances that the Trades Union Congress, the voice of Britain's 10-million-strong organized labor, will ratify the wage restraint deal when it meets June 16.

**Swiss Intervene**

LONDON, June 3 (Reuters).— The attention of international exchange dealers was focused today on Zurich, where the Swiss National Bank, worried at the inflow of foreign funds which had pushed the Swiss franc up to an uncomfortably high level, began taking counter action.

The Swiss central bank bought West German marks, and informed market sources said the West German central bank joined in and started buying up its own currency to discourage movement into francs.

As a result, the Swiss franc fell back against the mark and even against the pound.

In New York, some dealers reported that the Federal Reserve Bank last night started selling Swiss francs to check the franc's rapid rise against the dollar.

Swiss authorities have been worried that the swollen value of the franc could damage the country's export prospects.

## *entral Bank ntervention lits Record*

# *'Potato King' Explains His Default*

By Les Ledbetter

BOISE, Idaho, June 3 (NYT).—Jack Richard Simplot, the man everyone in Idaho calls the potato king, admitted here yesterday that he saw nothing unethical or illegal with the default by him and some of his friends last week on the delivery of nearly 50 million pounds of Maine potatoes.

Smiling continuously, sitting nervously, shifting from side to side in a straight-backed chair in an office in the new downtown headquarters here, Mr. Simplot said he entered the commodity futures market to make money after he judged that traders on the New York Mercantile Exchange were wrong in letting future prices rise to $19 per 100-pound sack of Maine potatoes.

"To me, it was simply that the buyers got the prices too high and kept them too high all winter so I sold them some more contracts," said the 67-year-old owner of J. R. Simplot Co., laughing as he talked about the potato speculators.

"Basically, they wouldn't get out. And I thought the market price was going down and I wouldn't get out," he explained, obviously relishing what he feels is his victory.

"I offered the traders $1 over the closing price, but they thought they had me trapped and could force me to pay $4 to $5 over the closing price," he continued. "But the rules of the exchange say I didn't do anything wrong," he said.

**Gets Profit Either Way**

Mr. Simplot said that it was now up to the New York Mercantile Exchange to buy potatoes for the contract holders or set a fair price to compensate for the potatoes they did not get. Either solution, he explained, was acceptable to him and would still leave him "making a little profit."

The former dirt farmer turned one-man conglomerate smiled again and told how he had hurt many speculators by delivering the potatoes they had contracted for rather than buying back the contracts at a profit to the speculators.

"We got rid of a thousand (railroad) cars (of potatoes)," he said, "and every car I gave them is going to cost them $1,000 to get rid of." "It's a weak potato market," he continued. "There are too many potatoes and I knew the price would be down." He added: "I bought all I could and I shipped all I could and then they tried to squeeze me. But I don't squeeze," he said, smiling again, "they're going to choke on those potatoes."

There are potato growers around here who said in interviews that Mr. Simplot's motive in the speculative market was to depress the market price of potatoes this year, especially those he must buy locally to fill the demand for french fries and other processed potatoes that flow from his plants around the state.

**Growers Are Called Fortunate**

These growers and shippers, all of whom spoke reverently about the potato king as they asked that their names not be used, said that they had been told by Simplot representatives that they were fortunate to be getting $3 a 100-pound sack for potatoes that cost them $3 a hundred pounds to grow.

"Two years ago, I made $20,000 profit selling spuds at $4 a sack and now I'm getting $3, and with prices for fertilizer gone from $50 to $100 a ton, I doubt I'll even be able to pay off my loan," said one local grower.

"If the growers plant more than they can sell, it's not my fault," said Mr. Simplot. "I'm still buying potatoes," he said, estimating his demand at 100,000 sacks a day in Idaho alone.

"Jack Simplot's a fair man, but he's tough," said another grower. "And if Jack can keep the price down 10 cents per bag, that's $10,000 a day he can make." Mr. Simplot discounted the theory that he had entered the speculative market in order to depress local prices, saying, "No state, no man, can control the potato market—it's too big."

However, he did agree that the 20 to 30 million sacks a year that the J. R. Simplot Co. processes did constitute "our fair share of the market." And he confirmed that his Oregon farms produced 10 per cent of his demand, giving him sufficient leverage with growers around the country.

*CFP Earnings Drop 58.8 Per Cent*

# BP Profit Plunges 52 Per Cent in Quarter

LONDON, June 3 (AP-DJ).— British Petroleum Co.'s net profit plunged 52 per cent in the first quarter, to £20.2 million from £43.2 million in the same quarter of last year.

Announcing this today, BP said sales rose to £2.34 billion from £1.84 billion in the first quarter of 1975.

Sales of crude oil fell to 19.5 million metric tons from 22.9 million metric tons, the company said.

Although the decline in crude oil sales tonnage has contributed to the reduction in net income, BP said, a more serious factor has been the losses incurred by its product trade in many areas of Europe. These losses have been aggravated in sterling terms as a result of the fall in the value of the pound, it said.

However, BP said, there are now signs of improvement in market returns in some countries.

The company said the weakness of sterling against the dollar has had an unfavorable impact on results in Britain. The dollar costs of crude oil from the Mideast and Nigeria have increased in sterling terms, but so far without recovery from increased British market prices.

**CFP Earnings Slump**

PARIS, June 3 (AP-DJ).—Cie. Française des Pétroles (CFP), France's biggest company, today reported its net consolidated profit for 1975 slumped to 721 million francs, a decrease of 58.8 per cent from the 1.752 billion francs recorded in 1974.

Consolidated sales for 1975 (after tax) totaled 39.2 billion francs, down from 42.8 billion francs a year earlier. CFP said this was mainly due to a "significant" drop in petroleum product consumption. Group sales volume dropped to 72.3 million tons last year from 86.6 million tons in 1974.

In another report today, Rhône-Poulenc, the major chemical and textile concern, posted a consolidated loss of 879 million francs for 1975 compared with net earnings of 863 million francs a year earlier.

Consolidated sales were down 12 per cent to 17.9 billion francs from 20.4 billion francs, with the textile sector accounting for 28.5 per cent of the total and chemicals 40.5 per cent.

The company attributed the poor performance to price declines averaging 4 per cent and a decrease of 9 per cent in sales.

**Japan Firms Report**

TOKYO, June 3 (AP-DJ).— Kawasaki Steel Corp.'s net profit fell to 6.8 billion yen ($22.7 million) in the year ended March 31 from 12.8 billion yen a year earlier.

Sales totaled 824.9 billion yen, down from 879.5 billion yen. The company set an unchanged 5-yen dividend.

Kawasaki Heavy Industries said its earnings rose to 10.7 billion yen from 10.6 billion yen the previous year, on sales of 490.1 billion yen, down from 518.1 billion yen. The company's dividend is 6 yen, unchanged.

Sumitomo Electric Industries earnings were 2.1 billion yen, down from 3.3 billion yen, on sales of 211.8 billion yen, down from 231.4 billion yen. Dividend: 5 yen, down from 6 yen.

Fuji Photo Film said profit for the six months ended April 30 was 4.3 billion yen, up from 2.5 billion yen a year earlier, while sales rose to 107.2 billion yen from 91.6 billion yen.

The company set a dividend of 3.75 yen, unchanged.

# *Price Indexes Up By 1.3 Per Cent In EEC States*

BRUSSELS, June 3 (AP-DJ).— Consumer price indexes in the Common Market rose an average 1.3 per cent in April from March, when the average increased 1.2 per cent from February, statistics published by the EEC Commission today showed.

The average April index was 11.5 per cent up from a year ago, unchanged on rounded basis from March.

Italy topped the list with a 2.6-per-cent increase in April, up from a March rise of 2 per cent. Denmark reported a decline and April figures were not given for Ireland.

In Britain, April consumer prices climbed 2 per cent in a month, sharply up from a 0.6-per-cent March rise. A 2-per-cent rise in a month was also reported for the Netherlands, where the March rise was only 0.9 per cent.

Other rises given for April (with March in parentheses) were: West Germany 0.6 per cent (0.4), France 0.9 per cent (0.8), Belgium 0.9 per cent (0.6), Luxembourg 1.5 per cent (0.2), Denmark 0.3 per cent (4.4).

Britain topped all EEC member states with a price rise of 19 per cent in a year, down, however, from a 21.1-per-cent rise registered in March.

# U.S. Will Depend on OPEC To End of Century, Aide Says

WASHINGTON, June 3 (Reuters).—The United States will be dependent on oil imports from the Organization of Petroleum Exporting Countries for the rest of this century, James Akins, the former U.S. ambassador to Saudi Arabia, said today.

Mr. Akins told the congressional Joint Economic Committee that OPEC was not likely to break up unless Saudi Arabia drastically increased its oil production.

"We must not allow ourselves to think that the current difficulties in OPEC will lead Saudi Arabia to contemplate such action (increased production)," Mr. Akins said. "It will not. Saudi Arabia is a founding member of OPEC and it will not bring about its fall," he said.

Mr. Akins said the United States should develop alternative sources of energy and begin a major energy conservation program to reduce its dependence on oil imports.

Among the conservation measures which should be taken is an increase on the tax on gasoline, beginning in 1979, which would reach $1 a gallon by 1990, Mr. Akins said.

Congress has previously rejected any attempts to raise the federal tax on gasoline.

Mr. Akins said a reduction in OPEC oil prices might be part of an overall Middle East peace settlement, but he warned against counting on this. He said peace must be maintained in the Middle East to prevent an energy crisis.

"If we want to be assured of oil supplies at reasonably stable prices, our first effort must be made toward achieving peace in the Middle East," he said.

# Japanese Growth Of GNP Reported 3.5% in Quarter

TOKYO, June 3 (AP-DJ).— Japan's gross national product, adjusted for price increases, ran at an annual rate of 96 trillion yen ($320 billion) in the first quarter this year, up 3.5 per cent from 1975's last quarter and against an annual rate of 89 trillion yen in the like year-earlier period.

The rise was the largest since the first quarter of 1973, when GNP grew by 3.8 per cent.

The preliminary figures released today in a report by Japan's Economic Planning Agency showed that GNP for the 12 months ended March 31 grew 3.1 per cent in real terms, against the year-earlier 0.2-per-cent real decline.

The GNP growth bettered the Economic Planning Agency's forecast for the period, which had seen a 2.6-per-cent rise.

Government economists here are said to be considering boosting the current official real GNP growth prediction of 5.6 per cent for the year ending next March 31 to something in the 6-to-7-per-cent range.

In another report, the Japan Society of Industrial Machinery Manufacturers said domestic orders for their products during April rose 25 per cent from a year earlier to 312.3 billion yen. The total was down 48 per cent from March.

Export orders received in April posted a three-fold increase from March to 128.5 billion yen, the society said.

*Fed Figures Are Awaited*

# Stocks End Downside on Big Board

NEW YORK, June 3 (IHT).— Prices showed small losses on the New York Stock Exchange today with investors awaiting word on the latest money-supply figures after the close.

The Dow Jones industrial average dipped 2.13 points to 973.80, and declining issues led gainers by about 705 to about 655.

Volume totaled 18.9 million shares, compared with 16.42 million yesterday.

Brokers said investors were awaiting a possible indication of Federal Reserve credit policy from the latest weekly Fed money-supply figures as well as an indication on inflation from the wholesale-price figures due tomorrow.

The Fed recently has tightened its credit policy—pushing up interest rates—because of earlier expansion in the money supply which gave way last week to a substantial decline.

After the NYSE closing, the Fed reported that the basic money supply was unchanged in the latest reporting week.

Proler International slipped 3 3/4 to 44 1/4 after reporting per-share first-quarter earnings half that of a year earlier.

Walter E. Heller declined 1 to 21 1/4. It filed for proposed public offerings of $45 million.

Sears, Roebuck, which reported a 4.1-per-cent rise in May sales, dropped 1 5/8 to 63.

Digital Equipment lost 4 7/8 to 158 5/8, while CBS backed off 1 1/2 to 53 1/4.

However, Sea Containers climbed 3 3/8 to 22. It said it will raise the dividend and also predicted higher earnings for the year.

Ford Motor, the strongest feature in the automotive group, rose 1 1/8 to 56 7/8. It reported a 13-per-cent gain in new car sales in the last third of May.

Smithkline rose 1 1/4 to 74. The stock was given a buy recommendation from some industry analysts.

Marley rose 3/4 to 49 1/4, and brought to more than 5 points the advance the last two sessions. It reported a sizable increase in earnings earlier in the week.

Dayton-Hudson picked up 1 1/4 to 27 3/4, with Colt Industries 2 1/4 higher at 51 1/4.

Prices on the Chicago Board Options Exchange were mostly lower, with losers topping gainers, 293 to 202. Volume approximated 54,906 contracts, up from 50,615 contracts yesterday.

British Pete slipped 3/4 to 10 1/2. The company reported lower first-quarter net.

Cyprus Mines was ahead 3/8 to 25 7/8 in active turnover. A block of 163,000 shares of the issue traded at 25 5/8.

Prices on the American Stock Exchange declined in light trading. The Amex index fell 0.24 to 102.90.

Presley Cos. fell 2 1/4 to 10 1/2, while Houston Oil & Minerals lost 3 1/2 to 59 3/8.

Nolex Corp. surrendered 1 1/8 to 7 1/8. It said the Securities and Exchange Commission is investigating certain trading of its stock during development of the Flip-n-Sip system.

Syntex eased 3/8 to 37 7/8.

Soybean futures fell 12 cents a bushel on the Chicago Board of Trade under apparent profit-taking and speculative liquidation.

Soybean meal lost about $3 and soybean oil lost about 1/2 cent a pound. Oats futures were down 1 1/2 cents, but corn gained 2 1/4 and wheat 1 3/4.

# Retail Sales Rise 3 Per Cent in U.S.

WASHINGTON, June 3 (AP-DJ).—Retail sales rose 3.2 per cent last week to a seasonally adjusted $12.44 billion, the Commerce Department said today.

Last week's sales were 12 per cent higher than a year earlier, exceeding the 10-per-cent average year-to-year gain of the four most recent weeks and equalling the 12-per-cent increase so far this year.

Durable-goods sales rose 0.2 per cent from the week before to just over $4 billion on a seasonally adjusted basis and were 19 per cent higher than a year earlier.

## Merrill Lynch Official

NEW YORK, June 3 (AP).— Roger Birk has been named president and chief administrative officer of Merrill Lynch & Co., the parent company of the largest U.S. brokerage firm. Donald Regan will continue as chairman and chief executive officer, relinquishing the title of president.

# *IMF Sells All Gold Offered At a Price of $126 an Ounce*

By Hobart Rowen

WASHINGTON, June 3 (WP).— The International Monetary Fund has sold at auction all the 780,000 ounces of gold it had offered—at $126 an ounce.

The bids were opened yesterday.

As expected, the price was close to quotations in markets here and abroad in recent weeks. Gold had been hovering in a narrow range of $126 to $128, pending the results of the IMF auction.

The IMF said it had received bids for 2,368,000 ounces of gold. The successful bidders offered to buy at between $126 and $134 an ounce, the average being $126.98.

The agency used the "Dutch auction" method, under which all successful bidders were awarded shares at $126, the lowest price the IMF deemed acceptable.

At $126 an ounce, the IMF made a profit of $36 an ounce over the approximate original cost of about $40 an ounce, for a total profit of about $67 million.

If yesterday's price were to hold, on the average, for the sale of the entire 35 million ounces, the IMF would accumulate nearly $2.2 billion to be used for the benefit of poor countries.

**Test to Come**

Market observers have said that a real test for the gold market will follow the auction. A rise in prices above the $126-an-ounce level would be taken as evidence that IMF sales will be easily absorbed and bullish for gold.

The price of gold rose slightly today in London and Zurich, closing at about $127.20, up about 30 cents from yesterday.

Gold prices, which came close to $200 an ounce late in 1974, dropped sharply after a U.S. Treasury auction unearthed little public interest here, despite the elimination of a 40-year ban on ownership of gold by citizens.

Prices continued to ease after the announcement in mid-1975 of the IMF plan to sell 25 million ounces.

The sale is the first of a series of auctions to be held every six weeks for the next two years. Profits are to be placed in a trust fund, which will then extend low-interest loans to 61 IMF member countries, mostly African or Asian, with per capita income of $350 or less.

The IMF did not reveal the names of the bidders for, or buyers of, its gold.

# Citibank Expert Sees 4-Per-Cent Growth in GNP

NEW YORK, June 3 (Reuters).—Citibank economist Lief Olsen today predicted a second-quarter increase of 4 per cent in U.S. real gross national product, down from a 7.5-per-cent increase in the first quarter.

Mr. Olsen, a Citibank senior vice-president, said in the bank's monthly economic report that the drop is not particularly serious as no one expected the pace of growth would continue steadily, quarter by quarter.

The second-quarter projection includes an increase in the inflation rate to 5.2 per cent from 3.7 per cent but Mr. Olsen said he does not believe it will be the first leg on a climb upward to a double-digit level.

Mr. Olsen said the recent uptrend in the wholesale price index does not mean the consumer price index will rise by something in the same order in the next few months, because the link between the two indexes is not that close.

He said the inflation rate ought to cool off to no more than 5 per cent in the third and fourth quarters of the year.

Citibank economists said the threat of inflationary pressure from supply factors is minimal, adding that the growth of plant capacity and utilization limits the likelihood of critical bottlenecks.

Legal Domicile: Luxembourg, 2 Boulevard Royal.
R.C. Luxembourg: B-6234.

### PAYMENT OF DIVIDEND

The annual general meeting of shareholders held on June 2nd, 1976, resolved to pay a dividend of 50 U.S. cents per share for the year ended December 31st, 1975.

Such dividend will be payable, subject to the laws and regulations applicable in each country, starting June 8th, 1976, against surrender of coupon No. 4 at the offices of the paying agents mentioned hereunder:

—in LUXEMBOURG: Banque Internationale à Luxembourg;
—in ITALY: All the leading banks;
—in SWITZERLAND: Crédit Suisse;
—in FRANCE: Lazard Frères and Cie;
—in THE FEDERAL REPUBLIC OF GERMANY: Commerzbank;
—in GREAT BRITAIN: S.G. Warburg and Co., Lazard Brothers and Co.;
—in THE NETHERLANDS: Amsterdam-Rotterdam Bank;
—in BELGIUM: Banque Bruxelles Lambert.

Coupon No. 3 is void and has to be remitted to the paying agents for cancellation.

The Board of Directors.

These securities having been sold, this announcement appears as a matter of record only.

ADVERTISEMENT

**OTIS ELEVATOR COMPANY**

(CDRs)

The undersigned announces that on request of "Otis Elevator Company" (the company) the deposit agreement between the company and the undersigned will be terminated and that consequently the termination procedure will start at June 1st, 1976.

Pursuant to section 8.02 of the general terms and conditions of the deposit agreement shares of Common Stock of Otis Elevator Company will be accepted for deposit from any person or persons who acquired such securities prior to June 1st, 1976, and who have informed the depositary 4th June, 1976, at the latest of the number of receipts to be presented for such deposit.

Till June 1st, 1978, the undersigned will deposit the deposited securities then held with another institution independent from the company, but approved by it and at the risk and the expense of the company.

Upon such deposit by the undersigned, the deposit agreement shall cease to be of any force or effect, and the company and the depositary shall be discharged from their respective obligations under the deposit agreement.

The quotation at the Amsterdam Stock Exchange terminated at April 15, 1976.

AMSTERDAM DEPOSITARY COMPANY N.V.

Amsterdam, June 1, 1976.

**BANQUE NATIONALE DE PARIS**

RESULTS OF THE 1975 FISCAL YEAR

In its session of May 25, 1976, the College representing the shareholders of the BANQUE NATIONALE DE PARIS and exercising powers of the General Meeting approved the balance sheet and accounts closed as of December 31, 1975, as well as the proposals of the Board of Directors regarding the following allocation of the Fiscal Year's profit ........ Fr. 210,015,854.38

- Appropriation to the legal reserve ........ Fr. 4,026,677.20
- Allotment of beneficiary shares of the BANQUE NATIONALE POUR LE COMMERCE ET L'INDUSTRIE and of the COMPTOIR NATIONAL D'ESCOMPTE DE PARIS ........ Fr. 815,855.71

  This sum, added to the minimum interest, comes to ........ Fr. 413,661.77 which allows for the distribution of a gross Fr. 1,125 per B.N.C.I. share and a gross Fr. 2 per C.N.E.P. share.
- Appropriation to the Reserves ........ Fr. 80,971,322.80 (bringing the overall reserve total to Fr. 800,000,000).
- Allocation to amount carried forward ........ Fr. 35,486,336.90
- Distribution of dividends to the B.N.P. shareholders ........ Fr. 88,300,000.00 which corresponds to a payment of Fr. 17.66 per share plus a tax already paid to the Treasury (fiscal credit) of Fr. 8.84, thereby bringing the global revenue per share to Fr. 26.50.

It is to be noted that, in accordance with article 47 of the law 65-566 of July 12, 1965, a global dividend representing Fr. 42,000,000 for the 1972 fiscal year was paid to the French Government, the sole shareholder. For the 1973 and 1974 fiscal years, the sum of Fr. 14.13 per share was distributed among shareholders in order to ensure a global revenue of Fr. 21.20 per share, including the fiscal credit of Fr. 7.07.

The distribution to bearers of B.N.C.I. and C.N.E.P. beneficiary shares and the payment of the dividend to B.N.P. shareholders will be carried out as of July 1, 1976.

Sales figures are unofficial.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

a—Also extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. e—Declared or paid in preceding 12 months. i—Declared or paid after stock dividend or split up. j—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. r—Declared or paid in preceding 12 months plus stock dividend. t—Paid in stock in preceding 12 months, estimated cash value on ex-dividend or ex-distribution date.

x—Ex-dividend or ex-rights. y—Ex-dividend and sales in full. z—Sales in full.

cld—Called. wd—When distributed. wi—When issued. ww—With warrants. xw—Without warrants. xdis—Ex-distribution.

vi—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies.

Year's high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 25 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

## *INTERVIEW WITH HISTORY*

*By Oriana Fallaci. Translated by John Shapley. Liveright. 376 pp. $10.95.*

Reviewed by Ted Morgan

ART critics used to say of Monet: He is only an eye, but what an eye. Media critics can say of Oriana Fallaci: She is only an ear, but what an ear. She has a way of getting political leaders to drop their guard and spill the beans. I wish she would tell us how she does it. But good cooks don't give away their recipes. I have always found the formal interview with a head of state or some other panjandrum to be an exercise in futility. They give you prepared thoughts and prepared feelings. Their facades are well defended. But Fallaci infiltrates, goes behind the lines and sketches from life. The 14 interviews in this book, conducted over three and a half years, show why Fallaci is the only non-English-speaking journalist I can think of with an international reputation.

I wish she was content to be an ear, to exercise her uncanny talent without trying to enlarge upon it. But no, she wants to be more than a brilliant interviewer, she wants to be an avenging angel. She goes to an interview "with a thousand feelings of rage." She sees herself as a foe of power, a libertarian whose life is devoted to unmasking the great. This strikes me as disingenous, for surely she must be conscious of her own power, of which she gives us several instances.

Her Golda Meir tapes were considered important enough to have been stolen from her Rome hotel (Fallaci suspected Libya's Qadhafi). When Mrs. Meir heard about the theft, she said: "Obviously someone doesn't want this interview to be published. So we'll have to do it over. Find me a couple of hours for a new appointment." Ali Bhutto, the President of Pakistan, begged her to disavow an interview where he had insulted Indira Gandhi, which he feared would compromise peace negotiations with India. The ability to get important persons trained in careful speech to say things they will later regret is a genuine form of power.

In the recipe department, I can smell some of the ingredients. Success depends on access, which requires ingenuity. Fallaci obtained her interview with Gen. Giap as part of a delegation of Italian women. He would not let her turn on her tape recorder, so she asked all the women to take notes. He would not give her permission to use anything except a watered-down official version, but she published her version anyway. Alas, good journalism often involves some form of betrayal. After a while, access becomes a matter of reputation. Kissinger saw Fallaci because he liked her interview with Giap. Ali Bhutto saw Fallaci to r what Indira Gandhi had tol

Once she has access, F operates from the axiom flattery will get you anyw "Dr. Kissinger," she asked, do you explain the fact you're almost more famous popular than a president? you a theory on this ter?" One can almost hear singer purring before he Fallaci his lone-cowboy it which later caused him to that the interview was stupidest thing in my life."

She also uses the won't please-come-to-the-rescu poor-little-me approach. "F ly. I don't know where to Chancellor Brandt," she say have so many things to ask Which starts Brandt off on revealing reminiscences. An *ploy is misinterpreting* an as so that it escalates into an answer. When Golda Meir men have always been goo her, Fallaci asks, "Are you ing that you prefer me women?" which wasn't at all Mrs. Meir was saying, but to another round of explana When Fallaci asks a tough tion, she gets away with playing the moist-eyed s tioner. "Dom Helder," she the archbishop of Recife, B Camara, "I must ask yo embarrassing question. was a period in your life d which you embraced fas She becomes a confidant r than an interrogator.

These devices are availab any competent journalist. laci goes beyond them in best work. There is some about her that triggers re tions. The Shah of Iran, a a cautious interviewee, re himself to her as a medieva ot, saying: "This busine feminism, for instance, wh these feminists want? Wha you want? You say equality. I don't want to seem rud ...you're equal in the eyes, law but not, excuse my so, in ability . . . You're produced a Michelangelo, Bach. You've never even duced a great chef . . . produced nothing great, not

One wonders whether the thought it was a great int when he saw his *cri de* in print. On other occasion chemistry fails to work. Hussein told her nothing platitudes and kept looking watch.

The title, "Interview History," is a bit misleadin history, the book is prac worthless. Most of what political leaders told Falla either trivial or outdated. value of the book lies h insights they give the about themselves, in their words. They come across more candidly than probably meant to, and in strange, roundabout way get at the truth of them even when they try to an And that is the second why the book is interesting splendid example of that self-effacing of all arts—t of the interview.

# BRIDGE — By Alan Truscott

The young Swedish team played with great flair during the recent World Team Olympiad. The diagramed deal from a match against Ireland is an example of the skill of Anders Morath, who sat South. As he plays a strong club system, he was forced to open with one heart, and eventually found himself struggling in game in a shaky 4-3 fit.

He won the opening lead of the spade queen with the ace, and ran the heart ten around to East's queen. The diamond ace was led and ruffed by declarer, who played the heart nine and captured the jack with dummy's ace. He led the club ten, finessing, and repeated the finesse. West would have been in trouble if he had ruffed so he discarded on this and two more club leads, producing this tricky ending:

NORTH
♠ 106
♡ 5
◇ QJ.

WEDNESD FRIDAY

# )avis Makes Clutch Entry for Angels

## Drives in Two Runs in First Appearance

Tommy Davis

BLOOMINGTON, Minn., June 3 (UPI).—Tommy Davis, in his first at-bat as an Angel, drove home two runs with a pinch-hit single during a three-run eighth inning last night, igniting a 5-2 California victory over the Minnesota Twins.

The 37-year-old Davis, signed as a free agent just before the game, delivered his clutch single after loser Jim Hughes, 1-6, and reliever Bill Campbell walked the bases full in the eighth. Dave Chalk followed with a sacrifice fly to score the third run of the inning. Chalk also knocked in the Angels's first two runs with a second-inning single after Bill Melton walked and Joe Lahoud singled.

California is Davis's 9th club, the major league record is 12. But the modern record, since 1900, is only 10, shared by Dick Littlefield and Bob Miller. Davis's total does not take into account his two stints with the Chicago Cubs, or his brief stay with the New York Yankees this year. He attended spring training, but was dropped before the season opened.

In his 16-year career, he has been the National League batting champion twice (.346 in 1962 and .326 in 1963, both with the Los Angeles Dodgers); the top designated hitter in the American League twice since the rule was instituted in 1973, and has a career batting average of .295.

The Baltimore Orioles released him last fall after he had hit .293, .289, and .283 in three years with them as a designated hitter.

**Yankees 7, Red Sox 2**

At Boston, Chris Chambliss singled home a pair of runs to key a five-run second inning and Ed Figueroa hurled a four-hitter in a 7-2 victory by New York over the Red Sox.

Figueroa struck out six and walked only one in gaining his sixth victory against three losses and the third consecutive victory for the American League East Division leaders.

**Tigers 6, Brewers 4**

At Detroit, Ben Oglivie pinch hit a two-run inside-the-park homer and Willie Horton drove in two runs with a single and a sacrifice fly to spark the Tigers to their fourth straight victory, a 6-4 decision over Milwaukee.

Oglivie's homer, which provided the game-winning runs, came in the eighth inning after Charlie Scrivener reached on a fielder's choice.

**Orioles 2, Indians 0**

At Cleveland, Lee May hit a two-run homer off reliever Tom Buskey in the 14th inning as Baltimore snapped a three-game losing streak with a 2-0 victory over the Indians.

The Orioles were held to only two hits over the first 13 innings by Cleveland pitching, but Reggie Jackson singled with one out in the 14th and May followed with his homer into the left-field stands, his seventh of the season.

**White Sox 1, Rangers 0**

At Chicago, Jorge Orta singled with the bases full and one out in the 11th inning to score pinch-runner Pat Kelly from third and end a string of 34 scoreless innings for losing pitcher Jim Umbarger and give the White Sox a 1-0 victory over Texas.

Jim Essian doubled to open the Sox 11th, only the third hit off starter Umbarger, and Kelly ran for him. Bill Stein was walked intentionally and Ralph Garr forced Stein on an attempted sacrifice as Kelly reached third. Bucky Dent was walked intentionally before Orta drove the ball over center fielder Juan Beniquez's head for the game-winning hit.

**Reds 8, Astros 7**

At Houston, Joe Morgan's seventh-inning sacrifice fly scored Pete Rose with the winning run in an 8-7 victory for Cincinnati over the Astros.

Mike Lum led off the Reds' seventh with a pinch-hit single and went to third on Rose's second double of the night. Then, after Dan Driessen singled home the tying run, Morgan followed by lofting a sacrifice fly to right-field.

**Dodgers 11, Giants 3**

At Los Angeles, undefeated Rick Rhoden helped himself to his fourth straight victory by driving in four runs with a pair of singles and a squeeze bunt as the Dodgers unleashed an 18-hit attack en route to an 11-3 rout of San Francisco.

In helping Los Angeles to its first victory over the Giants in five tries this season, Rhoden singled home a run in the second, squeezed home Henry Cruz during a five-run third and singled home two more in the fourth. The 23-year-old right-hander scattered 10 hits and yielded solo homers to Dave Rader in the third and Bobby Murcer in the fourth.

**Pirates 4, Expos 2**

At Montreal, Richie Zisk drove in two runs, including the winning run with an eighth-inning sacrifice fly, as Pittsburgh defeated the Expos, 4-2, behind Bruce Kison's fourth victory.

The score was tied 2-2 when Manny Sanguillen, who had three hits in the game, tripled and Zisk followed with his sacrifice fly.

**Phillies 4, Cardinals 1**

At St. Louis, southpaw Tom Underwood pitched a five-hitter and hit a two-run single in the fifth inning to give Philadelphia their 13th straight victory on the road, a 4-1 victory over the Cardinals.

Underwood gave up three singles, a double and Hector Cruz's solo homer in the fifth. His record is now 2-1 and he has a 4-0 career record against St. Louis.

**Cubs 5, Mets 3**

At New York, Manny Trillo's two-run single highlighted a four-run fifth inning which carried Chicago to a 5-3 triumph over the Mets behind the pitching of Bill Bonham.

Rick Monday, who had three hits, started the Cubs' fifth inning with a single and reached third on a wild pickoff throw by losing pitcher Craig Swan. Swan then hit Jose Cardenal with a pitch and Bill Madlock singled to score Monday. Larry Biittner blooped a single, loading the bases, and Trillo followed with his two-run hit, which put the Cubs ahead, 3-2. Joe Wallis's infield out scored the final run of the inning.

## Cubs Edge Mets On Kelleher's Hit

NEW YORK, June 3 (UPI).—Mick Kelleher's two-out single in the seventh inning scored Larry Biittner from second base with the winning run today to give the Chicago Cubs a 2-1 victory over the New York Mets.

Dave Rosello triggered the winning rally with a one-out single to left but was erased on a fielder's choice by Biittner. Losing pitcher Mickey Lolich wild-pitched Biittner to second base and Kelleher responded with his opposite-field hit to right as Biittner barely beat the throw to the plate from outfielder Dave Kingman.

Chicago took a 1-0 lead in the third on a run-scoring single by Jose Cardenal after a single by starter Ray Burris and a walk to Rick Monday, but New York tied it in the fifth on a double by Wayne Garrett and a single by Ed Kranepool.

Boston Center Dave Cowens kicks as he tries to hold ball. AP.

### 109-107

# Suns Tie NBA Series, Defeating Celtics by 2

By John Schulian

PHOENIX, June 2 (WP).—Whatever else the Phoenix Suns did last night in beating Boston, 109-107, to even the NBA finals at two games apiece, they survived.

For a moment late in the stomach-wrenching fourth quarter, it looked as if the Suns were going to do more than that. Alvan Adams and Paul Westphal combined for six straight points that could have been the beginning of an artistic ending.

But there are no artistic endings in games like this, with the referees blowing their whistles every time they exhale and a capacity Veterans Memorial Coliseum crowd of 12,884 screaming for Boston blood.

The Celtics, struggling to regain some of the nobility they seem to have lost in this series, fought back as Phoenix missed four straight shots.

When Dave Cowens, who missed 16 minutes because of fouls, threw in his second left-handed hook of the spree, the Suns led by what turned out to be their winning margin. But 34 seconds remained, and they seemed out on their feet.

**Botched Play**

Coach John MacLeod called time, only to watch his ball club then botch the play he had ordered.

Boston's Paul Silas grabbed the rebound, his 14th of the night, hurried the ball to John Havlicek, and the Celtics came up the floor with seven seconds on the clock and Jo Jo White waving frantically in the corner.

Havlicek fired the ball to him, and White, who led Boston with 25 points, unleashed a jumper that went wide and proved to the Suns that they could survive.

To hang in there against the Celtics, who kept coming back throughout the game and led briefly early and in the middle, the Suns needed help from everywhere.

Nobody provided more of it than Garfield Heard, who may be the product of the best trade Phoenix ever made. The erstwhile Buffalo Brave forward faced up to the bruisers on Boston's front line and came away with 15 rebounds and 19 points that all seemed to come at critical times.

**Steady Game**

Adams, the most grown-up 21-year-old rookie in captivity, wasn't much help on the boards. He contributed 20 points and his usually steady floor game. His fellow first-year man, Ricky Sobers, and 10-year veteran Dick Van Arsdale split the floor leadership splendidly, and Westphal, the former Celtic, led the Suns with 28 points, 10 of them from the foul line.

The free throws are what had Boston coach Tommy Heinsohn raging the entire game. He paid for it with one technical foul—MacLeod also got hit with one—and assistant coach John Killilea had to restrain him from going after referee Manny Sokol in the last quarter.

Sokol and Bob Murphy came on the floor tonight blowing their whistles with a vengeance. The first three games of the championship series have been as violent as a Sam Peckinpah Western and the referees seemed determined to become the censors for it.

To Heinsohn's howling dismay, Phoenix wound up with a playoff record 21 free throws—and a 35-30 lead—in the first quarter. Boston established the old mark of 18 back in 1962, and Washington tied it last year.

# Amaya Is Easy to Find at French Open Tennis

By Bernard Kirsch

PARIS, June 3 (IHT).—First Rome, now Paris, next the grass of Wimbledon—a tall order for an inexperienced player; all sites where it is easy to become lost in the tennis crowd. It won't happen to Victor Amaya.

Amaya, a debutant in Europe, won his second-round match today in smooth but unexciting fashion, defeating West German Hans Joachim Plotz, 6-3, 6-3, 6-4. Neither his style nor his potential make him distinctive. It's his height.

Amaya, at 6 feet, 6 1/2 inches, is the tallest player on the circuit. He says his size isn't a great advantage in his chosen sport. He said to just look at players like Bjorn Borg, Jan Kodes, Eddie Dibbs, Manuel Orantes, Harold Solomon—all seeded men under 6 feet who backed up Amaya's point by winning today in the second round on the clay courts of Roland Garros in the French Open.

Amaya, an American from Holland, Mich., is here for experience, one of those players at the age where he must soul-search to see if he wants to stick to his career or maybe return to the university. He will be 22 by the time Wimbledon is over next month.

Tennis is in the middle of such a surge nowadays, said Amaya after his triumph today, that "there are so many players around who play well; at least 250. With all the money in the game, people now stay around longer.

"There are even old-timers like Manuel Santana who come back," he said.

Amaya hasn't been there yet. In Rome, he didn't survive the opening round, but had an excuse—his opponent was top-seeded Guillermo Vilas. Amaya extended Vilas to a third set and "that built my confidence." It was barely enough to cover his week's expenses; he made about $370.

He already has accumulated 4,300 francs ($950) for winning twice in this 982,000-franc classic. Another 5,000 francs await him if he can beat fellow-American Eddie Dibbs, 11 1/2 inches shorter, in the next round.

**Watching Borg**

After winning today, Amaya praticed for the Dibbs encounter by watching Borg play. The big man, who has tried a bit of basketball but became a tennis man because that was his father's sport, said, "It's fun to watch Borg play; you learn, you try to find your own reasons why he has won this tournament twice."

Borg, who will be 20 on Sunday, gave a full demonstration today. The top seed was a 6-1, 6-1, 6-2 victor over Austrian Hans Kary. The other seeds also showed power and guile today. Italian Adriano Panatta, fifth seed and on the court for three hours yesterday, was full of energy in ousting Japan's Jun Kuki, 6-2, 6-2, 6-1.

Manuel Orantes, No. 3, beat fellow Spaniard Antonio Munez, 2-6, 6-3, 6-4, 6-1. Czechoslovak Jan Kodes, a two-time winner here who left the court last night trailing two sets to one, came back today to finish Frenchman Patrice Dominguez, 4-6, 7-6, 6-7, 6-0, 6-0.

And two of the smallest and best U.S. players also came through in their styles. Dibbs had Hans Pohmann cursing in a 6-3, 7-5, 6-1 victory. Solomon spent more than three hours on the court for the second straight time, wearing out Indian Sashi Menon, 6-4, 6-4, 3-6, 4-6, 6-2.

**His Idea of Hell**

Solomon also, at times, wears out an opponent's nerves. He had opened here this week by losing the first two sets to Kim Warwick, and then winning the next three, staying back by the baseline and playing his waiting game—hitting high ball and line drive, lob and another high ball. When the match ended, Warwick said, "Playing Harold Solomon five sets a day for the rest of my life is my idea of hell."

Warwick created a little hell during the match, beaning a ballboy and throwing his racket, and he kept it up afterward by breaking three bottles and throwing a stadium guard to the floor. Today, Menon's action stopped with the match.

Dibbs, Solomon and Amaya are three of the game's most determined players. Their main differences are their heights and their seedings here: Dibbs, 5 feet 7, and Solomon, 5 feet 6, are both No. 5; Amaya, 6-6 1/2, is one of many.

WOMEN'S SINGLES
First Round

Sue Barker, Britain, d. Nerida Gregory, Australia, 6-3, 6-3; Marita Redondo, U.S., d. Elvira Weisenberger, Argentina, 6-1, 6-1; Glynis Coles, Britain, d. Brigitte Cuypers, South Africa, 6-0, 6-0; Carmen Perea, Spain, d. Ceci Martinez, U.S., 6-3, 6-0.

Beth Norton, U.S., d. Christine Matison, Australia, 6-0, 6-1; Fiorella Bonicelli, Uruguay, d. Maria Nasuelli, Italy, 7-5, 6-2; Florence Guedy, France, d. Sylvie Rual, France, 2-6, 6-4, 6-0; Virginia Ruzici, Romania, d. Michele Gurdal, Belgium, 6-2, 6-2; Antonella Rosa, Italy, d. Sue Mememdhasich, U.S., 7-5, 6-3; Regina Marsikova, Czech., d. Michele Tyler, Britain, 6-4, 6-4.

Eva Szabo, Hungary, d. Sue Greer, U.S., 6-7, 7-6, 6-1; Mariana Simionescu, Romania, d. Victoria Baldovinos, Spain, 7-5, 6-1.

MEN'S SINGLES
First Round

Jan Kodes, Czech., d. Patrice Dominguez, France, 4-6, 7-6, 6-7, 6-0, 6-0.

Second Round

Eddie Dibbs, U.S., d. Hans Pohmann, West Germany, 6-3, 7-5, 6-1; Ricardo Cano, Argentina, d. Enrique Caviglia, Argentina, 6-1, 3-6, 6-2, 5-7, 6-1; Jiri Hrebec, Czech., d. Victor Pecci, Paraguay, 4-6, 6-3, 6-4, 6-2; Jean-François Caujolle, France, d. Gerald Battrick, Britain, 7-6, 6-4, 4-6, 6-4; Belus Prajoux, Chile, d. Byron Bertram, South Africa, 6-4, 2-6, 6-4, 6-0; Victor Amaya, U.S., d. Hans-Joachim Plotz, West Germany, 6-3, 6-3, 6-4.

Harold Solomon, U.S., d. Sashi Menon, India, 6-4, 6-4, 3-6, 4-6, 6-2; Adriano Panatta, Italy, d. Jun Kuki, Japan, 6-2, 6-3, 7-5; Wojtek Fibak, Poland, d. Patrick Proisy, France, 6-4, 1-6, 6-2, 6-3.

### Giles Defeats Dunlop

# 5 Americans Advance in U.K. Match Play Golf

ST. ANDREWS, Scotland, June 3 (UPI).—Defending champion Vinny Giles led five Americans today through to the last 16 of the British Amateur Match Play Golf Championship.

The 33-year-old Virginian thrashed Englishman Sandy Dunlop, 6 and 5, on the St. Andrew's Old Course with the sort of high-powered performance which makes him likely to become the first U.S. player in 41 years to win the title twice in succession.

Giles was three up at the turn and had a birdie three at the 10th, where he chipped home from 25 yards with a nine iron.

The champion took the next two holes, finishing with a 13-yard birdie putt on the 13th green to be three under par overall.

He was joined in the fifth round by 1973 champion Dick Siderowf, 1974 runner-up Jim Gabrielsen, John Paul and Alan Pate.

Siderowf, the 39-year-old Connecticut stockbroker, had a narrow escape before beating Canadian Graham McIntyre at the 20th.

The American, one of the three remaining seeds, was one down playing the 17th, but scrambled a half after topping his second shot and was then reprieved when his opponent three-putted the home green, missing from a yard.

The U.S. Walker Cup star got through after two extra holes when McIntyre was bunkered.

**Mulcare Upset**

Gabrielsen, another Walker Cup international, also was involved in a tough battle. The 34-year-old Atlanta insurance broker had to go to the 17th before ousting Pat Mulcare, 2 and 1.

Cain and Pate, who scored upset third-round victories against seeded opponents, showed calm displays today.

Cain, a 40-year-old Houston stockbroker, scored a 2-and-1 victory over Billy Raymond; Pate, a 23-year-old Alabama University student, eased home, 3 and 2, against Norman Chesses.

Three other Americans in fourth-round action all lost.

John McKey was unable to maintain the form which enabled him to eliminate British Walker Cup international Peter Hedges yesterday. The 32-year-old attorney from Florida lost to Irishman David Long, who edged in, 2 and 1.

Bill Cosgrove of Massachusetts went down, 3 and 1, to 18-year-old Scotsman Brian Marchbank, and Don Kenington, a 41-year-old Alabaman, lost, 3 and 2, to English international Mike Kelley.

## Olympic Site 'Unsafe'

MONTREAL, June 3 (Reuters).—Official tests have indicated that the roofing material in the Olympic velodrome is a fire hazard. The Quebec Province Labor Department withheld safety approval after the Canadian National Research Council reported that the acrylic substance covering the skylight in the arena burned twice as fast as wood and was not within its accepted fire hazard standards.

# Ali-Norton Bout Set for Sept. 28

NEW YORK, June 3 (UPI).—It was made official today. Muhammad Ali will defend his world heavyweight championship on Sept. 28 against Ken Norton in a 15-round bout at Yankee Stadium.

Announcement of the third meeting between Ali and Norton, the No. 1-ranked contender, was made at a news conference called by Madison Square Garden, promoters of the bout in conjunction with Top Rank, Inc., which will handle the worldwide closed-circuit telecast.

Ali, who knocked out Richard Dunn of Britain in Munich on May 25 in his last bout, will receive $6 million for his seventh title defense since regaining the championship with an eighth-round knockout of George Foreman in 1974.

Norton, who is being guaranteed $1 million, is one of two men who have defeated Ali, scoring a 12-round decision over him in 1973 when he broke Ali's jaw. Ali reversed that loss later in the same year in a close fight which he won in the last of the 13 rounds. Norton's record is 35-3, including 28 knockouts.

# All Noise Is Good Noise

By Russell Baker

NEW YORK.—In Manhattan, where I live, the block just to the south of us is always being dynamited. Sometimes it happens two or three times during dinner. Then two or three weeks will pass without a single explosion.

Baker

At first I used to jump up from dinner and run out to see the damage, and, of course, there wasn't any. There wasn't even any curiosity among the street crowds. They were calmly buying magazines, waiting for buses, carrying home pastrami and doing all those normal New York things. I quickly began to feel foolish.

The worst of it was that I could never find any damage. Buildings were all intact, manhole covers all in place, glass all unshattered.

And yet, the sound of the dynamiting went on at irregular intervals. Sometimes it occurred at midnight; sometimes at breakfast. After a while I stopped hearing it. Oh, it still went on, all right, but I had begun to develop the New York ear.

I noticed the change one night during dinner when an out-of-town guest jumped from his chair during the soup and cried, "What in God's name was that?" I had noticed nothing unusual. True, an instant earlier there had been the sound of an entire city block blowing up just to the south of us, but it had made no more impression than the clatter of spoon against bowl.

I confess to having felt a brief twinge of contempt for the guest, to thinking, "These out-of-towners! How poorly fitted to live in New York!"

By that time I had stopped hearing all manner of noises. The automobile burglar alarms, for example. Do they even exist outside New York? Perhaps I should explain. These are shrill screech emitters which can pierce solid granite for a distance of two blocks. In theory, they are activated when car thieves try to break in, filling the air with their maddened screeches, thus terrifying the felons into flight and summoning policemen. In practice, they go off regularly whenever they feel lonely.

Since the screech may continue for an hour or two before the car owner or policemen find time to tend to it, I used to thrash angrily out of bed and pace the house cursing through the predawn hours until my New York ear became fully developed. Now it is quite different. Not long ago, in fact, I awoke at 2:30 one morning terribly aware that something was dreadfully wrong. The automobile burglar screecher which normally goes off under our bedroom window at 2 a.m. was absolutely silent.

The insane cacophony of the 72d Street fire engines, which always sound as if they have been summoned against the firebombing of the whole universe, was shrieking away at its normal decibellage, which lent an air of security to the night. But the silence of the car screecher was almost unbearable. Fortunately, just when it seemed I might never get back to sleep, the entire block just to the south of us was dynamited.

* * *

A few weeks ago there was a fierce gun battle just at dinner in front of our house. I believe it was a gun battle, although it may have been Greeks setting off firecrackers. The Greeks were celebrating their independence day that weekend. We had a guest from the suburbs who called it to our attention but by that time we were too numb to the sounds of New York to be much interested.

"It is either Greeks setting off firecrackers or two motorists waging a gun battle over a parking place," I pointed out.

Just the other morning, at precisely 4:15, I was awakened by an unusual sound in the street. It sounded like a tractor-trailer driving through a plate-glass window. I was ecstatic. New York had come up with a brand-new sound which had the power to stir me. I did not rise to investigate but fell immediately back into sleep when once again came this extraordinary sound as of a giant plate-glass window being smashed by a great truck.

"What's that?" asked a sleepy child.

"Just a tractor-trailer driving through a plate-glass window," I murmured. "Oh," yawned the child, and we drifted off as the entire block just to the south of us blew to smithereens.

# The 'Half-Persons' of Korea Come of Age

*The children of U.S. soldiers and Korean women, born 20 to 25 years ago, are a relatively small group. Discrimination against them is such that men have been excused from the draft for the Korean Army.*

By Richard Halloran

SEOUL (NYT).—They call themselves the half-persons. The Koreans politely call them the mixed-race people. Pearl Buck, the author who wrote about the Orient, called them the Amerasians.

They are the offspring of U.S. soldiers and Korean women born of liaisons 20 to 25 years ago during and after the Korean war. They have come of age. And they are bitter.

Kim Kap Joo, who is 22, said: "It's impossible to have pride as a mixed-race person. Americans have pride as Americans and Koreans have pride as Koreans. But I have no pride as either."

Another mixed-race person, a 23-year-old woman named Auh Yung Mi, put it this way: "Even though we live in Korea, we are treated as foreigners."

The Korean word for foreigner she used means "outside person" and in the Korean context that stings much more than in English.

## 'Closed Society'

A third, Lee Chun Shik, who is 24, said: "Korea is different from the United States or the Philippines because Korea is a closed society as far as race is concerned. We are not part of that society."

Another 24-year-old, Kim To Hyun, pointed out: "In Japan, they have mixed-race persons but they have their own area of activity—they're entertainers or singers or models. But in Korea, it's not that way. We have nothing."

Others here who know the mixed-race people say many despise themselves because they don't know who their fathers were. Many of their mothers were prostitutes.

Their mothers have often turned against them as they have grown up. "Maybe they were considered cute as babies. But as they got older, they became more and more of an embarrassment to their mothers," according to Carroll Hodges, the director of the American Kor-Asian Foundation that tries to help the mixed-race youngsters.

In a homogeneous Korean society that is uncompromising with those who are different, they have been mocked. Some have been taunted from the first day they entered school because they have blue eyes, Mr. Hodges said.

## Educations

For the most part, the mixed-race persons have had inferior educations. They have not been able to get into good secondary schools because of discrimination and because they come from homes that are poor even by Korean standards.

That has meant few could qualify for vocational schools or universities. Those who have managed to be admitted have often dropped out because of discrimination and their own immaturity that came from uncertain home lives.

Miss Auh, Mr. Lee, and the two Kims have been among the most fortunate. Miss Auh is a university graduate in social work, Mr. Lee in chemical engineering, Kim Kap Joo is an electronic technician and Kim To Hyum an auto mechanic. The Kims are not related (Kim is the most common name in Korea).

Not even the Korean Army will have them. The men once were subject to the draft but have been excused because they were ridiculed and beaten up by Korean soldiers.

Nobody is sure how many mixed-race persons have been born in Korea since the first U.S. soldiers came here after World War II. Estimates range from 20,000 to 40,000.

Only 3,000 are here now; the rest have been adopted in America or Europe. And of those still here, about 1,000 are under the age of 6, fathered by the Americans who continue on duty here. Based on past experience, those children will probably be adopted.

The young adults are thus a relatively small group who were bypassed for adoption either by chance or because their mothers kept them until they were too old to be adopted.

The solution to their troubles, several of the mixed-race persons contended, was to emigrate to the United States. "We all feel almost the same way about that," Miss Auh said, even though few speak English well, they have no friends in America and they are Korean by culture and thought.

But they are attracted by the size and diversity of America. Kim To Hyun said, "It would be easier to find my way in a big country." Mr. Lee agreed. "I think the United States is a mixed country and if I were there I would be less different and would have less difficulty."

Miss Auh said she couldn't find a husband in Korea. "But if I got to the United States," she said, "I could marry an American without any problem."

She also said that prejudice against the children she hoped to have would be less.

## Escape

Kim Kap Joo had a slightly different attitude: "It's not just going to the United States," he said. "I just want to escape from Korea."

They all admitted, however, that they are not prepared to go to America yet. "We need the opportunity to mix with Western people in Korea to learn how to be Americans," Miss Auh said. "But the Westerners here think of us as Koreans, not as people with American fathers."

Mr. Hodges said the major legal obstacle to emigration, since they are too old to be adopted, was lack of sponsors in America to guarantee their livelihood until they get on their feet.

In 1973, mixed-race young adults scoured Korea to count the children. "They could do it," Mr. Hodges said, "because they were looking for their own."

The survey turned up 2,550 children. Mr. Hodges estimated that there are 3,000 today.

## Findings

They found that 56 per cent were boys, indicating that more girls had been adopted, 30 per cent had black fathers and thus were doubly disadvantaged in Korean eyes, 60 per cent lived below average Korean standards and 30 per cent were in dire circumstances.

About 70 per cent lived with their mothers, 5 per cent in orphanages, and the rest by their wits.

Mr. Hodges said, "We found that their greatest need was for counseling and guidance. They haven't had fathers and tended to be more immature than their contemporaries and to lack stick-to-it-tiveness."

The foundation took on the support of an informal association the mixed-race youngsters formed. They call it the Hapa Club, "hapa" being a Koreanized version of a Hawaiian word meaning half-person.

The Hapa Club provides the youngsters with a place to meet, a newsletter, free classes in English, emergency medical treatment, and most of all educational and job counseling. Funds come from the Robert T. Wilson Foundation of Tucson.

**Andy Warhol with Jamie Wyeth's portrait of him at a New York gallery. Warhol's portrait of Wyeth is now also on view—the gallery says Warhol's work (six silk screen portraits and five drawings) is worth $210,000 while the asking price for the Wyeth oil is $180,000.** AP.

# PEOPLE: *U.S. Experts Debunk 'Ape Boy' Legend*

The report of an "ape boy" in Burundi excited the interest of two Boston experts, Dr. Harlend Lane, a Northeastern University psychologist, and Dr. Richard Pillard, a Boston University School of Medicine psychiatrist. If the boy, nicknamed John by the Catholic priests in the orphanage where he lived, had indeed been "brought up" by apes, as suspected, it would provide a unique opportunity to study the development of human behavior. John had supposedly been found in the jungle in 1974. After two weeks in Burundi, the experts have "no reason to believe that the boy ever lived with monkeys," despite his monkeylike mannerisms and features. Drs. Lane and Pillard and John flew from Burundi to Nairobi Thursday where the boy has been admitted to the Kenyatta National Hospital for tests. There's a possibility of taking John to the United States for further evaluation. The experts now think that his "monkeylike" behavior may be the result of mental illness.
